TO ADVERTISERS!

The Star now has a very much larger number of readers than ever before in the forty odd years of its history. We can quote you a very attractive proposition.

VOL. LXXXVII—NO. 58. WILMINGTON, N. C., TUESDAY MORNING, NOVEMBER 29, 1910. WHOLE NUMBER 13,465.

MEXICAN TROUBLE BREAKS OUT ANEW

Two Troops of United States Cavalrymen Hurried to The Border.

MORE FIGHTING IS REPORTED

Passengers Arriving Across Border Tell of Uprising of Indians—Madero is Safe and Uninjured—Details.

Douglas, Ariz Nov. 28.—For the first time since the campaign resulting in the capture of the Apache Indian chief Geronimo, United States cavalry squadrons are stationed on the border here. Two troops of the Eighth Cavalry under Lieut. Powers made a rapid trip from Herford, arriving here yesterday.

Brigadier General Thomas, with his aids, Lieut. Coxe and Lieut. Collins, left here today for a conference with General Torres, of the Mexican army, at Naco.

Passengers out of Mexico say there is a heavy movement of troops towards northern Sonora and Chihuahua indicating that the Mexican government is striving to concentrate its forces to surround Madero, west of Monclova.

Passengers arriving today from Guayamas, Mexico, report a small uprising of Yaqui Indians at Bacum, on the Yaqui river. In a skirmish three days ago, three Yaquis were killed and one was wounded.

Advices from Chihuahua say that one battalion of the 20th Infantry has arrived from Mexico City. This battalion numbers 500 men, with artillery and machine guns. These troops have taken the place of regular troops of the 12th battalion and third cavalry which have gone for a campaign against Madero. Revolutionists after engagements at Guerrero, have taken a stand at Perdenales, where a combat is expected with government troops sent out by Jefe Politico Zea.

Madero is Still Safe.

San Antonio, Tex., Nov. 28.—That Francisco I. Madero is safe and uninjured is the news brought to his family by a courier, who comes direct from him today.

The messenger says that Madero is at present gathering his forces in the Laguna district near Lerdo and Parral.

Madero was not wounded at any time, says the envoy, and is constantly gathering allies to his standard.

As far as the confiscation of the Madero estates is concerned, the courier states Madero is not much concerned since the bulk of his interests are in the hands of friendly Americans.

Seized 300 Pistols.

Laredo, Texas, Nov. 28.—According to reports received on both the American and Mexican sides of the body, everything is quiet. The Neuvo, Laredo, Mexico, says the postal and customs authorities seized 300 pistols today. The weapons which came from the United States by registered mail, were returned to this country today as prohibited importations into the Republic of Mexico.

A prominent American official of this district today received an anonymous letter, written in Spanish, stating that if he did not desist in his efforts in behalf of the Mexican government he would be killed.

The company of State rangers which has been encamped at Minera, Texas, for the past five days, returned to Laredo this afternoon.

Fight With Revolutionists.

Chihuahua, Mexico, Nov. 28.—Government troops have returned to Chihuahua from their fight with the revolutionists four miles west at Fresno on Sunday. Two thousand reinforcements are expected before the government resumes its attempt to re-open the Mexico and Northwstrn railroad, which is tied up as a result of the fight.

The insurrectionists are said to have been reinforced by bands from Parral. They now number 10,000 and they have forfeited positions at various points. Lively fighting is expected when the campaign starts.

Sunday's fight was the first real fight of the insurrection in this part of Mexico. Three hundred insurgents attacked the government's rear guard of 400 government troops, who were marching along the Mexico and Northwestern (Chihuahua and Pacific) railroad. Seven dead insurrectos were brought in last night and viewed today at police headquarters. The government lost one killed and seven wounded. The fight lasted three hours, both sides taking shelter behind boulders and in ditches.

The rebels' presence was a surprise. The troops left Chihuahua Sunday morning, headed by General Navarro, with the intention of regaining the towns along the railroad line, no trains having been operated since last Tuesday. Their ultimate destination was Minaca. Four miles from Fresno, the insurrectionists mounted, awaited them in concealment behind the hills. The rebels allowed the cavalry and a detachment of infantry to pass without disclosing their presence.

Later the rear guard of 150 soldiers, with a number of women and children appeared and the insurrectos opened fire.

The troops retreated in good order into the valley firing steadily and the insurrectos were then gradually driven from behind stone fences and corrals. A courier was dispatched as the battle opened to call back the main body of troops. When the troops returned the insurrectos galloped west in good order, disappearing in the canons. If they had any wounded they took them with them.

FATAL CRASH WITH SURREY

Wheeling & Lake Erie Train Dashed Into Crowded Vehicle Killing Three and Injuring Two at Canton, Ohio.

Library of Congress

Canton, O., Nov. 28.—Three persons were killed and two badly hurt when a Wheeling & Lake Erie train truck a crowded surrey shortly before 9 o'clock tonight at the Maple Avenue crossing. The dead are Mrs. Joseph Myers, Morris Ress, 24; Jacob Ress, 16.

Miss Fannie Myers, who was internally injured, but who probably will recover, was to have married Morris Ress on January 1. The party was on its way from North Canton to the city. There are no gates or watchman at the Maple avenue crossing. The train was making probably 20 or 25 miles an hour. The surry was almost squarely across the track when the train struck it.

In a moment the unconscious forms of the injured and dying were scattered along the right of way and the terrified horse, trembling, stood sniffing at the form of the boy who fell close to the tracks.

The two lovers fell near one another, and the girl, when she recovered consciousness, crawled a few paces to where the dead body of her affianced lay. They were borne away together in the same ambulance.

It is feared that the Ress' death will prove too much for the exhausted strength of the girl.

SOCIETY OF MAYFLOWER.

Taft Eulogized Character of the Pilgrim Fathers at Banquet.

Washington, Nov. 28.—President Taft eulogized the character of the Pilgrim fathers at the eleventh annual banquet of the Society of Mayflower Descendants in the District of Columbia tonight, the occasion being the celebration of the 290th anniversary of the signing of the compact in the cabin of the Mayflower.

President Taft, it was recently learned is a descendant of Francis Coke, one of the pilgrims who came in the Mayflower and a certificate of membership was tendered him by the president of the local society, former Associate Justice Henry B. Brown, of the United States Supreme Court, toastmaster of the evening.

"I wish to testify to my gratitude at being advised that I am a descendant of one of those who came in the Mayflower," said the President. "Time was when I thought those who came over in the Mayflower plumed themselves as belonging to the aristocracy of the nation. On the contrary I believe now that they showed a humility and proper spirit of republicanism and democracy."

Speaking of the reason why the landing of the Pilgrims was so important in the early history of the United States President Taft declared it was because the Prilgrims were among the first who landed and stuck in the country of pleasant Summer residences—New England.

"They showed the uses and needs of a written constitution," he continued, "they showed a great capacity for self-government that, without making invidious comparisons has lent moral fibre and moral duty to the whole settlement of the United States.

BLIND TIGER JOINT RAIDED.

Detectives at Goldsboro Swooped Down on Twenty Places.

(Special Star Telegram.)

Goldsboro, N. C., Nov. 28.—A wholesale raid was made on blind tiger joints in this city today, and when the afternoon police court opened twenty "tigers" were caged in the city hall, charged with selling whiskey. Many brands of different kinds of whiskey were displayed as evidence by four detectives, three of them white and one negro, who have been in the city for several weeks working on the above cases and today they closed on their victims. Ten of the above cases were tried this afternoon, five going free and the other five being bound over to the higher court. Counsel for the defendants made things rather unpleasant for the detectives while giving their evidence. They became confused during several cases, and especially the negro who contradicted his own statements on several occasions. No evidence whatever was shown for the State against the five defendants who were discharged.

CAROLINIAN IS PROMOTED.

For Meritorious Service as Postoffice Inspector—R. W. Hodgin.

Washington, Nov. 28.—For meritorious service a number of postoffice inspectors were promoted today by Postmaster General Hitchcock. Among them are Azell B. Britten, of Tennessee and Robert W. Hodgin, of North Carolina.

The Postmaster General expressed his gratification over the effective way in which the inspectors have been rounding up concerns guilty of using the mails for fraudulent purposes and promotions bestowed are announced to be a reward for this kind of service.

ALABAMA PEONAGE CASES ARE UPHELD

Prison Sentences of Four Men Allowed to Stand by Supreme Court.

MANY DECISIONS ANNOUNCED

Appeal From an Attack on Alleged "Gerrymander" in Kentucky Dismissed—Cases From All Sections.

Washington, Nov. 28.—Cases arising from nearly all sections of the United States were passed upon in some 25 decisions announced today by the Supreme Court of the United States.

One of the decisions had the effect of sending to prison four Alabama men for alleged peonage practices. Others held that the court could not review the power of a legislature to gerrymander" a State for Congressional purposes because the question had been raised in connection with the election in 1908 long since past; that a State may regulate liability for nondelivery of telegraph messages interstate commerce so long as Congress does not regulate it, and that no constitutional rights of widows in California had been violated by the assessment of an inheritance tax on the wife's share of community property owned by wife and husband before the latter's death.

Sentences of imprisonment imposed upon W. S. Harlan, Robert Gallagher, C. C. Hilton and S. E. Huggins, of Alabama, on peonage conspiracy charges, were allowed to stand as legal by the Supreme Court today. These were the first convictions under the recent crusade of the Federal government against peonage.

W. S. Harlan, general manager of the Jackson Lumber Company, with mills near Lockhart, Ala., was arrested in 1906, together with C. C. Hilton and S. E. Huggins, employes of the mills, on a charge of conspiracy to commit the statutory offense of "peonage." They were accused specifically of having conspired to arrest and to return to the lumber camp of the company a Hungarian named Rudolph Lanniger to work out an indebtedness alleged to be due by him to the company.

Harlan was sentenced to serve 18 months at hard labor in the Federal penitentiary at Atlanta and a pay a fine of $5,000; Hilton and Huggins, each to serve thirteen months and to pay a fine of $1,000.

The Supreme Court declined to review the trial upon application of the convicted men, but the cases were brought to the court on an appeal from the refusal of the Circuit Court of the United States for the North District of Florida to release them on writs of habeas. They claimed their release on the ground that the sentence included hard labor and because the grand jury was not organized in accordance with the law.

In a second case, Robert Gallagher, logging superintendent of the Jackson Lumber Company was convicted on a similar charge and sentenced to fifteen months in the penitentiary and to pay a fine of $1 000. He, too, vainly sought release on habeas corpus.

Kentucky Action Dismissed.

Leaving to one side the question as to whether or not States may "gerrymander" their territory for Congressional districting purposes independent of limitations by Congress, the Supreme Court today dismissed for want of jurisdiction the appeal from an attack on an alleged "gerrymander" in Kentucky.

The court held it was without jurisdiction because the case concerned the Congressional election of 1906 and therefore the case now raised only a moot question.

Judicial proceedings were begun by Republicans in Kentucky in 1907 to test the alleged "gerrymander" of the State for Congressional election purposes. Charles Richardson, of the Fourth Congressional district, filed a suit asking that the Secretary of State and his successor be enjoined from printing on the official ballots in 1908 the names of certain candidates for Congress.

It was claimed by him that the act of the Kentucky Legislature had "gerrymandered" the 11th, 8th and third districts in violation of statutes of Congress and the constitution. Such discrepancies existed in the apportionment, it was claimed that a voter in the Eighth district availed in voting more than one and four-fifths times as much as a voters in the eleventht. At the election in 1908 it was argued before the Supreme Court, the Republicans carried eleventh by over 21,000 while the Democrats carried the eighth by about 1,500 and the third by about 500.

The Kentucky Court of Appeals held that it had no power under the State constitution to review the action of the legislature in districting the State for Congressional purposes and it questioned the power of Congress to do so.

PROHIBITION DEFEATED.

Result of Recent Election in Missouri. The Votes.

Jefferson City, Mo., Nov. 28.—Prohibition was defeated in Missouri, at the recent election, according to official announcement today, by 218,125 votes. It received 207,281 votes with 425,406 against it and carried only 37 of 115 counties.

TAFT'S RAILROAD COMMISSION

First Public Hearing in Washington. Clements About Regulation of Rates—Views on Federal Control.

Washington, Nov. 28.—"The Interstate Commerce Commission believes that a physical valuation of the railroad properties of the United States is the first step toward adequate regulation of rates; and I believe the same principle applies to the establishment of a basis for the control of stock and bond issues," said Judson C. Clements, of the Interstate Commerce Commission at the first public hearing of the new railway securities commission.

The commission appointed by President Taft under authority of the railroad law passed by the last Congress, began hearings today, at which members of the Interstate Commerce Commission and State commissioners from Massachusetts and other States, will present their views of Federal control of the issuance of railroad securities. President Arthur Hadley, of Yale University, presided at the hearing. After stating that the commission had not agreed upon a remedy for the present situation regarding stock and bond issues, Commissioner Clements declared that there "is no dissenting voice on the Interstate Commerce Commission, however, to the proposition that regulation and control of securities is necessary.

Walter L. Fisher, of Chicago; J. N. Judson, of St. Louis; Frederick Strauss, of New York, and B. H. Meyer, of Madison, Wis., the other four members of the securities commission, were all present at the hearing. They asked the members of the Interstate Commerce Commission whether that body had made plans for a general valuation of the property of all the railroads. Mr. Clements said it had not, but that experts could be put on under the supervision of the commission who would be able to fix a value that would give shippers and government authorities a basis for the defense or condemnation of rates.

The commission will not attempt to agree upon any plan for stock and bond control until it has discussed the situation thoroughly with the Federal and State commissioners.

FOOTBALL CHAMPIONS.

A. & M. Students Celebrate in Raleigh Last Night.

(Special Star Telegram.)

Raleigh, N. C., Nov. 28.—The victory of the A. & M., over the V. P. I. on Thanksgiving Day's football game and the record of the Carolina farmers for the season, in winning the college championship for the South Atlantic States, was celebrated here tonight, on Fayetteville street. The special occasion lights on "The Great White Way," including the big "Welcome ta Raleigh" electric sign, were lighted in honor of the occasion. The A. & M. ball team was rode in a big bandwagon, a large special canvass football, on a frame was carried on shouders of students on the football team, bearing the inscription "A. & M. 5, V. P. I. 3" and "South Atlantic Champions." A surpentine parade back and forth on Fayetteville street, by students and the college band, was a feature. Meridith College, Peace Institute and St. Mary's school were also invited.

KILLS MAN WHILE DYING.

Policeman Shoots Unknown Robber After He Had Been Shot Down.

Philadelphia, Nov. 28.—During a pistol duel at 42nd and Pine streets tonight, Policeman Bornett was shot in the shoulder and died in the University Hospital, and an unknown man, supposed to be a burglar, was shot and killed. Bornett, who was in civilian dress, had been sent to watch the locality, as a number of burglaries had recently been committed. At 40th and Pine streets he saw two men who aroused his suspicions and followed them. They separated at 42nd street and he followed one who had entered an alley. When he began to question the man the latter drew a revolver and shot him. As the policeman fell he drew his own pistol and fired two snots at his fleeing assailant. The latter dropped dead. The dead man was about 26 years old and had $182 in his pockets.

OUTLINES.

In a mine explosion at Durant, Okla., yesterday thirteen were killed. Only one of the number entombed by the explosion was rescued——The report of Gen. W. H. Bixby, chief of engineers of the United States Army, to the War Department on appropriations needed for river and harbor work was made public yesterday——The United States Supreme Court yesterday announced decisions in 25 cases, notable among which was the Alabama peonage, the prison sentences of four men being allowed to stand——The trouble in Mexico has broken out afresh and the hostilities of the past two days has caused two troops of United States cavalrymen to be ordered to the border——The complexities of the long and short haul phases of railroad traffic were threshed out before the Interstate Commerce Commission yesterday.——New York markets: Money on call easy 2 1-4 to 2 1-2 per cent., ruling rate and closing bid 2 3-8. Spot cotton closed quiet, 15 points lower, middling uplands 15.00, middling gulf 15.25. Flour steady with a fair local trade. Wheat spot easy, No. 2 red 95 5-8 elevator and 95 3-8 afloat. Corn easy No. 2, 54 3-4 f.o.b. to arrive. Oats, spot steady, futures unchanged to 1-4c higher. Turpentine firm.

NEW PARLIAMENT NOW FOR ELECTION

Proclamation of Dissolution of Old House Summons New One Jan. 31st.

THE STRUGGLE IN IRELAND

Complications Likely to Arise Over Home Rule—Suffragists Create Disturbance—Union Irish League in America.

London, Nov. 28.—With the dissolution of Parliament today all formalities preliminary to the election of a new Parliament were completed. The proclamation of dissolution summoned the new Parliament to assemble on January 31, 1911.

Among the first of its members to be elected unopposed will be Arthur J. Balfour, the opposition leader, the Liberals having decided not to contest his seat for the city of London. On the stock exchange, regular dealings have been instituted in bets on the election, the feeling seemed to anticipate a reduction in the Liberal majority.

In Ireland, the struggle is growing more bitter every day. A meeting of delegates representing every Ulster constituency was held in Belfast today, at which a resolution was adopted on motion of a Presbyterian minister to draw up a solemn declaration refusing to pay rates or taxes imposed by a Dublin Parliament or obey its decrees, while $50,000 was subscribed on the spot to organize the Ulstermen into regiments and purchase arms.

At night a monster unionist demonstration was held at Ulster Hall, Belfast, an overflow meeting of 20,000 people being held in the open air. Both aroused the greatest enthusiasm. Lord Londonderry declared that American dollars enabled John Redmond to hold Asquith in the hollow of his hand. If a home rule parliament were established, he said, it might be found that Ulster would utterly decline obedience to the law.

Sir Edward Carson, formerly solicitor general and conservative M. P., for Dublin University, said they never would consent to their country being sold for American dollars. Walter Hume Long, Unionist M. P., for Strand, spoke in the same strain, and other speakers advocated stern resistance to the law if home rule was forced upon Ulster.

The first independent woman suffrage candidate is announced in the person of a prominent advocate of William Mirrloos, who will contest a division of Glasgow. The socialist party has decided to run a third candidate in Battersea, thus seriously endangering John Burns' chance for reelection.

Suffragists created serious disturbances at a meeting at Lambeth tonight at which Winston Spencer Churchill was speaking. After several men had been thrown out Mr. Churchill strongly denounced the suffragist tactics saying:

"I am told that individuals are to be singled out for violence. If that is their language, there is only one answer and that is 'come on'."

Irish League in America.

Boston, Nov. 28.—The members of the United Irish League of America, determined to meet squarely the issue of "American dollars" raised by the unionists in the campaign just begun for the election of a new Parliament today issued an appeal for funds to be sent to Ireland to assist the Home Rule party. This action was taken at a meeting held here today by the Boston members of the National Executive Committee of the League, including T. B. Fitzpatrick, National treasurer, and John O'Callaghan, National secretary. In its appeal the committee says:

"'Ireland's claim for home rule stands in the forefront in what is destined to be the most memorable general election in the political history of the last two centuries in Great Britain. The demand for Irish home rule is linked inseparably with the demand of the masses of the British people for the reforms which they have so long and so vainly demanded.

"In its desperation the House of Lords has been driven as a last effort to save itself from extinction, to cry out that its destruction is being wrought by the aid of 'American dollars.'

"The campaign cry that 'American dollars' are about to wreck the British constitution is, of course, simply meant as a catch-cry for the purpose of defeating the forces of progress. But the fact remains that 'American dollars' contributed to sustain and strengthen the Irish party in this contest, are going to play an important part in the result of the struggle."

Norfolk, Va., Nov. 28.—When the hatches of the Austrian steamer Giulia from New Orleans to Trieste, which put in here last week with a bad fire in her cargo of cotton, were lifted today, it was found impossible to remove much of the burned cotton and the work of transferring this cotton to barges was begun.

Stephen, Germany, Nov. 28.—The German steamer Berlin from Sunderland for this port has not been reported for seventeen days and is supposed to have foundered in the North Sea. The Berlin carried a crew of 17 men. Her cargo was coal.

FOR RIVER AND HARBOR WORK

Appropriations Needed for 1912 Estimated in Report of General Bixby to War Department—As to North Carolina.

Washington, Nov. 28.—Appropriations needed for river and harbor work for the fiscal year ending June 30, 1912 aggegate $30,095,698, according to estimates made public today by Secretary of War Dickinson in the form of a report made to him by Brigadier General W. H. Bixby, Chief of Engineers of the United States Army. These figures will be sent to Congress by Secretary of the Treasury MacVeagh and legislation in accordance therewith will be recommended by President Taft in his annual message. The estimates are divided as follows:

Under continuing contracts, $7,368,077.

Rivers and harbors (general, including Mississippi River Commission, and examinations, surveys and contingencies) $22,627,361.

Under California Debris Commission (Expenses), $15,000.

Prevention of deposits in New York Harbor, $85,260.

Many port projects calling for the expenditure of large sums have been omitted from the estimates this year. Among these are the 14-foot channel from Chicago to the Illnois River, deep channel for the Missouri river from St. Louis to Kansas City and from Kansas City north, as well as many others which have had as their champion members of both Houses of Congress who insisted strenuously that these projects be not forgotten.

The elimination of many of the improvements which have formed parts of the river and harbor bills in the past is in accordance with the insistence of President Taft that "pork barrel" measures shall be strangled. Instructions were given to the engineer officers of the army to prepare estimates only for such projects as are absolutely needed or which give certain promise to reduce the cost of transportation by opening up new water routes and enlarging some of those already existing.

Including the total of $22,627,361 which the chief of engineers believes to be necessary for expenditures during the year ending June 30, 1912, is a lump sum of $400,000 for examinations, survey and contingencies for which there may be no special appropriation. A number of the estimates follow:

Delaware—Harbor of Refuge, Delaware Bay, $8,000; pier near Lewes, $1,000; Wilmington harbor, $100,000; Appoquinimink, Murderkill and Mispillion rivers $15,000; Broad Creek river $2,000; Broadkill river $10,000; Saint Johns river, Delaware and Maryland $36,000.

Maryland—Harbor at Baltimore $10,000; channel at Curtis Bay, Baltimore, $5,000; harbors at Rocknall, Queenstown, Clairborne, and Cambridge and Chester, Choptank, Warwick, Pocomoke, LaTrappe and Monokin rivers and Tyaskin creek, $30,000; Susquohannah river, near Havre de Grace, $34,500; Wicomico river $3,000;.

District of Columbia—Potomac river $60,000; Anacostia river $200,000.

Virginia—Milford Haven harbor $2,500; Norfolk harbor, for maintenance including western branch of Elizabeth river $5,000 and approaches and channels to Newport News and up the southern branch of Elizabeth river $425,000; James river $15,000; Nansemond river $3,000; Nomini creek $8,000; Upper Machodoc creek, $13,200; Urbana creek $10,000; Mattaponi and Pamunkey rivers $10,000.

North Carolina—Improvement of inland water route from Norfolk, Va., to Albemarle Sound, $2,000; Beaufort harbor, $5,000; Cape Fear river, at and below Wilmington $100,000; Contentnia creek $1,000; Neuse and Trent rivers $5,000; New River and waterways to Beaufort $5,000; Northeast, Black and Cape Fear rivers $3,500; Pamlico and Tar rivers $5,000.

South Carolina—Mingo Creek $1,000; inland waterways between Charleston and Alligator Creek $41,000; Santee, Wateree and Congaree rivers $47,000; Charleston harbor, for a 28-foot depth $100,000.

Georgia—Brunswick harbor $35,000; Sapelo harbor $11,000; Savannah harbor $400,000; Altamaha, Oconee and Ocmulgee rivers $30,000; Flint River $7,500; Savannah River below Augusta $100,000; Chattahoochee river $75,000; Coosa River, locks and dam near Rome, Ga., $121,039; and continuing construction of lock No. 4 and dam No. 5 $150,000; improving waterway between Savannah and Fernandina, Fla. $30,000.

Florida—Apalachicola Bay $5,000; channel from Clearwater harbor to Tampa Bay $29,500; Fernandina harbor $25,000; Key West harbor $25,000; Hillsboro Bay $500,000; Pensacola harbor $25,000; Tampa Bay $9,000; Apalachicola river $5,000; Caloosahatchee river $69,000; Holmes river $1,000; Saint Johns river, $5,000.

Estimates were made aggregating $7,368,077 for works which Congress has provided may be carried under a continuing contract system and these are not included in the total of the new estimates submitted by General Bixby. These items include the following:

Bay Ridge and Red Hook channels, Gowanus Bay, N. Y., $241,000; for 35-foot channel at Boston, Mass., $1,100,000; harbor at Cleveland, O., $200,000; improving Detroit river, $250,000; improving harbor at Ludington, Mich., $219,087; improving harbor at Norfolk, Va., $100,000; Passaic river, N. J., $150,000; St. Marys river, Mich., $500,000; harbor at San Luis Obispo, Cal., $110,000; Arthur Kill, New York and New Jersey, $100,000; harbor at Ashtabuba, Ohio, $376,430; improving Black Warrior, Warrior and Tombigbee rivers, Ala., $500,000; Cape Fear river, N. C., $200,000; Cumberland river, below Nashville, Tenn., $250,000; Delaware river, for 12-foot channel from Philadelphia to Trenton, $160,000; harbor at Fairport, Ohio, $150,000; Kentucky river, Ky., for locks and dams Nos. 13 and 14, $63,000; harbor at Newport, R. I., $183,000; for construction of locks and dams in the Ohio river and below Pittsburg, $1,705,000; Providence river and harbor, R. I., $300,000; Saginaw river, Mich., $300,000; Saint Andrews Bay, Fla., $128,560; removal of Centissima and Rincon Reef rocks in San Francisco harbor, $30,000; Siuslaw river, Oregon, $50,000.

THIRTEEN MINERS DIE IN EXPLOSION

Only One Person Rescued From Jumbo Asphalt Mine in Oklahoma

FIVE WERE BLOWN TO ATOMS

Nine Men Were Entombed and Others Killed by Force of Explosion.—Rescuers Dug in the Workings All Day.

Durant, Okla., Nov. 28.—Thirteen miners were killed in an explosion at the Jumbo Asphalt Mine today and one of the 14 men in the workings of the mine was brought out tonight unconscious but alive. Five men were blown from the mouth of the shaft by the force of the explosion and the other nine were entombed. Gerald Roberts was rescued alive tonight and the bodies of eight companions were brought out of the mine after rescuers had dug in the workings all day.

Another Story of Explosion.

Fourteen miners were killed by an explosion in the Jumbo Asphalt Mine today. Five bodies have been recovered. The other nine miners were entombed by the explosion and Secretary Thomas of the mining company, says there is no doubt that all were killed. The men were thrown from the mouth of more than 200 feet in the air. The others were buried at a depth of 290 feet. Every man who lost his life was married.

The cause of the explosion has not been determined, but it is believed to have resulted from the formation of gas which was ignited from the lamps of the miners. The mine is a property of the Choctaw Asphalt Company, of St. Louis.

Early Story of Disaster.

Durant, Okla., Nov. 28.—Five men were blown to atoms and nine others were entombed beyond hope of rescue by a gas explosion of unknown origin in the mine of the Choctaw Asphalt Company at Jumbo, near Antlers, Oklahoma, today. The accident occurred just as the day shift was going to work. Five men were in the cage and fragments of their bodies were blown from the shaft, which is 290 feet deep. The other nine men were already in the mine. All the miners were white.

All efforts to reach the entombed miners have been futile as the explosion wrecked the shaft.

The mine has been in operation for ten years and is owned by a St. Louis corporation.

Mine Expert to Rescue.

Washington, Nov. 28.—When the first news of the explosion was received at the new Bureau of Mines, Dr. J. A. Holmes, chief of the bureau, immediately sent a telegram to A. G. Hamilton, at McAlister, Okla., ordering him to proceed at once to Antlers and give all assistance in his power. Mr. Hamilton is one of the bureau's experts, thoroughly trained in rescue work at the Pittsburg station of the bureau.

SLAYER OF YARD MASTER.

Negro Placed on Trial at Roanoke—Claims Self Defense.

Roanoke, Va., Nov. 28.—Pomp Scott, a negro, was put on trial here today for the killing of W. W. Spence, a railroad yard master, here six weeks ago. Scott plead "not guilty" when arraigned, but later his counsel offered to submit a plea of guilty to manslaughter and accept a term of 18 years in the penitentiary. Relatives of the dead man would not agree to this and the trial proceeded without a jury, evidence being submitted to Judge W. M. Staples, who will render the verdict, probably tomorrow. Scott cut Spence to death with a knife when the latter found him on the railroad yard and claims self defense.

Albany, N. Y., Nov. 28.—Cy Smith, of Jersey City, won from Terry McGraw, of Baltimore, in the sixth round of a scheduled ten-round bout here tonight. McGraw refused to continue the fight after his claim of foul was disallowed by the referee.

BANK [illegible] SECRET POLICE SYSTEM.

Inability t[illegible] ancial Institutions [illegible]

Bath, Me., Nov. 28.—Inability to compete profitably with other financial institutions is the principal reason advanced by State Bank Examiner Skelton for the closing today of the Peoples' Safe Deposit and Savings Bank, after a career of 42 years. The bank, on petition of Mr. Skelton, was enjoined by the Supreme Court from paying money and from receiving deposits.

The bank had liabilities of $870,418, including deposits of $842,786 when the last official statement was made in April last. The estimated market value of the resources was $871,976. Since July 1, when the annual dividend rate was reduced from four to 3 1-2 per cent. the institution has lost about $38,000 withdrawn from the form of deposits or interests.

Bank Examiner Skelton states that the integrity of the President Seth T. Snipe, Treasurer Oscar C. Rogers and the other officers is in no way questioned.

He expressed the opinion that the depositors would be paid in full eventually.

NAVAL VESSELS SOLD.

Winslow and Siren—One on Which Bagley Was Killed.

Washington, Nov. 28.—The "Winslow" on board of which Ensign Worth Bagley, the only officer in the navy killed during the panish-American war, lost his life, and the "Siren," both of which are too antiquated for modern war purposes, will pass from the hands of the government and sold to the highest bidder as a result of proposals which will be received by the Navy Department up to January 2, 1911, when they will be publicly opened. The Winslow, which is a torpedo boat, has been appraised at $1,768, while the value placed on the converted yacht "Siren" is $6,000. The vessel however, will be sold to the highest bidder.

The memoriable experience of the Winslow during the Spanish-American war occurred at Cardenas, Cuba, when she attracted the fire of the Spanish batteries, which resulted in the only death in the navy during Spanich batteries, which resulted in the conflict with Spain.

AVIATOR RESCUED FROM MOB.

Cook, of New York, Failed to Fly at Spartanburg, S. C.

Spartanburg, S. C., Nov. 27.—Henry Charles Cooke, a New York aviator, narrowly escaped violence at the hands of a jeering mob when he failed in four successive attempts to make a flight in his Curtiss biplane at Fairfield Park, in this city.

Believing they had been duped the rougher element among the spectators rushed at Mr. Cook when it was announced that the exhibition was over and threatened to attack him and destroy the machine. Trouble was averted only by the prompt arrival of policemen and the promise of those managing the exhibition to refund the price of admission.

Mr. Cooke's aeroplane was the first ever seen in South Carolina. He made several successful flights at Huneola, L. I., before coming here.

BANKER IS INDICTED.

Former President of State National Bank of New Orleans.

New Orleans—Nov. 28.—The United States grand jury returned in indictment here late today against William Alder, former president of the State National Bank of New Orleans. The [illegible] embraces five counts charging misapplication of the funds of that institution.

This is the second indictment to be returned against Adler charging him with the liquidation of the State National Bank more than three years ago. After fleeing to Honduras, the former bank president subsequently returned here and was tried in the United States District Court. He was convicted and sentenced to a term of six years in the Atlanta prison. A few weeks ago the Federal Court of Appeals however, granted him a new trial.

MORE FEVER AT LEXINGTON.

Washington and Lee Closes For Long Christmas Holiday.

Lexington, Va., Nov. 27.—Announcement was made today by President George H. Denny, of Washington and Lee, to the student body that the Christmas holiday would begin at once and that the winter term would begin January 3. The holiday begins this early because of the development during the past week of several cases of fever and desire of the university authorities to exercise utmost precaution. The examinations are about to begin and the faculty has made an equable adjustment of this phase of the situation.

The source of the fever trouble both at Washington and Lee, and the Virginia Military Institute is said to be due to the periodic turning off of the water supply because of water shortage during the continued dry season. The addition of a new adequate supply in the last few days has renewed this trouble.

Washington, Nov. 28.—After having been on deposit for more than 40 years with the assistant treasurer of the United States here, $1,200, the sale price of 23 mules, captured during the Civil War, and sold by order of Admiral Porter, because the animals belonged to supporters of the Confederacy, finally has been added to the government's surplus. This was by virtue of an order issued today by Chief Justice Clabaugh, of the District Supreme Court.

Not Sorry for Blunder.

"If my friends hadn't blundered in thinking I was a doomed victim of consumption, I might not be alive now," writes D. T. Sanders, of Harrodsburg, Ky., "but for years they saw every attempt to cure a lung-racking cough fail. At last I tried Dr. King's New Discovery. The effect was wonderful. It soon stopped the cough and I am now in better health than I have had for years. This wonderful life-saver is an unrivaled remedy for coughs, colds, la grippe, asthma, croup, hemorrhages, whooping cough or weak lungs. 50c $1.00. Trial bottle free. Guaranteed by Robert R. Bellamy.

THE SOUTHBOUND ROAD.

Wadesboro Preparing to Take Care of Business—Wholesale Houses.

Wadesboro, N. C., Nov. 28.—With the coming of the Winston-Salem Southbound Wadesboro is preparing to handle the business of the new territory. A new jobbing house to handle groceries will be opened at once. In the lead of the new company are Julian F. Allen and the F. C. Allen Company and W. T. Rose, of the Anson Real Estate and Insurance Company. Both of these young men are hustlers and will make the new enterprise a success. They will occupy the Odum building and ground has been broken for a warehouse at the freight station. The other grocery jobbing house, the Parsons & Hardison Company, already enjoys a large business but will make a still greater effort as the new territory is opened up. It is rumored that the Parsons Drug company will give larger attention to their wholesale department and take the Southbound trade from the start. This firm does a very heavy business and is composed of five, energetic young men who see the opportunity opened by the new road.

WADESBORO REAL ESTATE.

Valuable Facts Disposed of This Week. —A Farm Sold.

Wadesboro, N. C., No. 29.—Real estate activities reported yesterday include the sale of the Boggan tract, about 1 1-2 acres lying on the old depot road and known as the Moore place, was sold and bid off by Mr. J. D. Horne at $2,225. The sale was made for division between Mrs. L. L. Boggan and her children, who owned the property.

Mr. T. L. Caudle has sold ot Mr. E. K. Smith 500 acres of his Chesterfield tract of land. Consideration $6.200. Mr. Caudle still has 1,500 acres n Chesterfield, said by many to be the finest sandy soil in that count.

MR. J. A. BURNS DEAD.

Stricken Last Thursday, Died on Sunday at Cedar Hill.

Wadesboro, N. C., Nov. 28.—Mr. Joshua A. Burns died Sunday at his home near Cedar Hill, in the 75th year of his age. Mr. Burns has been in failing health for some time, but the immediate cause of his death was paralysis, with which he was stricken last Thursday.

Chattanooga, Tenn., Nov. 28.—Eight thousand people stood in the cold for hours today waiting to see airships attempt to fly and finally after 4 o'clock Alfred G. Harros, in a Demoiselle, made an ascent. He circled the field twice and descended. Then Ranesmon went up in his Bleriot monoplane and circled the field four times.

Richmond, Va., Nov. 28.—The official canvass today of the recent vote of the State showed among other things that the proposed constitutional amendment providing that county commissioners of the revenue and county treasurers might succeed themselves in office, was adopted, the majority in its favor being 1,437. All the other proposed amendments were defeated.

Grafton, W. Va., Nov. 28.—Work of clearing the tracks after the wreck last night of Baltimore & Ohio train No. 7, the New York and Chicago Express has completed at Altamont, Md., where the accident happened. Two trainmen were killed, L. J. Flannagan, engineer, and H. H. Demoss, fireman of the passenger train. Express messenger William Pearson, baggagemaster Harry Biser and two passengers, were slightly hurt.

Petersburg, Va., Nov. 28.—Colonel E. M. Feild, 78 years old, known to thousands of Confederate veterans as commander of the "fighting twelfth" Virginia regiment, Mahone's brigade, late tonight seriously fractured his hip on a fall on a slippery pavement.

Salisbury is fast coming to its own The news as told in yesterday's paper that Sparks' Circus had effected an arrangement to Winter here is another proof of Salisbury's advantages. Centrally located in the State, with splendid railroad facilities, with an unequalled climate, and surrounded by fine cotton and grain growing lands, no other town has better inducements to offer the prospector or the investor. Salisbury is an ideal Winter resort, far enough away from the Atlantic to escape most of the damp east rains and close enough to the mountains to catch the pure oxygen as it slides down into the plains The Sparks' people caught on to the true conditions and adopted Salisbury as their Winter home. Let others follow.—Salisbury Post.

Hicks' Capudine

Cures Headaches—All Kinds—Gripp, Colds, Aches From Malarious Conditions, Etc.

Capudine cures Headaches, whether from heat, cold, brain-fag, over-exertion or stomach troubles. It cures sick headaches and nervous headaches also.

Capudine is also the quickest and best remedy for attacks of Cold or Gripp It relieves the aching and feverishness and restores normal conditions.

Capudine is liquid—easy and pleasant to take—acts immediately. 10c., 25c. and 50c. at drug stores.

NEBRASKA WOMAN FOUND.

Girl Located in Mexico Declares She Was Not Kidnapped.

Mexico City, Nov. 28.—Grace Rolph, of Pender, Neb., who, far a time was believed to have been kidnapped for a hacienda in Tamaulipas, by Segundo Severo, a Mexican bowboy, employed on the place, was found alone in a small town near Tampico several days ago, it was learned today. She declared that she had not been kidnapped, but had gone away of her own accord.

She said that she had not been deserted, but that Severo had gone to make peace with the officers, who had been pursuing him. When that was accomplished, she said, they intended to be married. The American ambassador was appealed to by relatives of the girl for aid in effecting the capture of the alleged kidnapper.

WILL TRY MRS. MARTIN.

Begns at Newark January 9th—Her Mental Condition.

Newark, N. J., Nov. 28.—Judge Teneyck today set January 9th as the date for the opening of the trial of Mrs. Caronna B. Martin and Mrs. Mary W. Sneaw, the two surviving Wardlaw sisters indicted for the alleged murder of Ocey W. M. Snead, the victim of what is known as the East Orange bath tub mystery.

The inquiry into the mental condition of Mrs. Martin is still in progress and if she should be found to be insane she will not of course be placed on trial for her life. It has not yet been determined what in that case will be done in regard to the trial of Mrs. Snead. Miss Virginia Wardlaw, the other sister indicted in connection with the death of Ocey Snead, died several weeks ago.

WHAT VICTORY COST.

Democrats Spent $328,780 in New York in the Recent Election.

Albany, N. Y., Nov. 28.—The Democratic State Committee disbursed $328,80[illegible] in electing its tate ticket, according to a statement filed with the Secretary of State tonight. The committee received individual contributions aggregating $303,047 and November 5 borrowed $30,000, making the total receipts $[illegible]3,472. There is a balance of $4.602.

The New York county Democratic committee's statement snows that its receipts was $108,7[illegible] and the disbursements $106,492.

Winfield A. Huppuch, the chairman of the Democratic State Committee, and the business partner of Governor-elect Dix, contributed $20,[illegible]05 to the state committee.

New York, Nov. 28.—Six comely nurses of the city hospital Jersay city, participated in a sacrificial act today that will assure them of bearing for life a badge indicating that they contributed their mite toward saving a human life. On the left of each, midway between the shoulder and elbow is a spot about an inch square from where the skin was deftly pared by a razor-edged surgeons knife.

Waynesboro, Ga., Nov. 28.—The membership stake of the Continental Field Trial Club which began a week's work for the dogs, was won by Happy Day with White Lodge Count second, and Cowley's Lady, third.

Richmond, Va., Nov. 28.—Matt Henson, the colored man who accompanied Lieut. Peary on his journey to the North Pole, told of his experiences tonight before an audience at the Fifth Street Baptist church, colored.

BEST NORFOLK SERVICE.

The Atlantic Coast Line's through night service between Wilmington and Norfolk has pre-eminent advantage, in that it is the only through car or double daily route and does not require a midnight or early morning transfer of trains and depots.

Sleeper leaves Wilmington 7:00 P. M., arrives Norfolk 8:00 A. M. next day. Parlor car leaves 8:40 A. M., arrives Norfolk 5:55 P. M. same date.

No change of sleeping cars or day coaches between Wilmington and Norfolk, and the trains run every day in the week. For reservations and further particulars, call 'phone 160.

CHRONIC ULCERS INDICATE BAD BLOOD

Where the blood is pure any wound or laceration of the flesh heals "by first intention." This is true because nature has provided a constituent to the circulation known as Plasma, which joins and holds the place together until the fibres and tissues can permanently knit and interweave. Whenever the ulcer becomes chronic it is because this healing quality of the blood has been impaired by some impurity in the circulation, and the place remains open, infecting all surrounding flesh, until the character of the circulation is changed. No sore can heal where the blood is bad; because the morbid impurities on which it thrives are constantly deposited into it by the burdened circulation. Cleanse the blood and the sore will heal of its own accord, because then its very source and foundation will have been destroyed. S. S. S. cures Chronic Ulcers of every kind for the one great reason that it thoroughly purifies the blood. It goes into the circulation and removes every particle of infectious or morbid matter, enriches the corpuscles, and assists nature in the formation of the necessary plasmic qualities of this vital fluid. No matter from what source the impurities of the blood came, S. S. S. will remove them. Book on Sores and Ulcers and any medical advice free to all who write.

NASH IS MAKING PROGRESS.

Shown by Interesting Statistics—County With Bright Future.

(Special Star Correspondence.)

Nashville, N. C., Nov. 28.—Once Nash county was famous the State over and over and into other States as well for the best apple brandy in the world—"Old Nash" it was called—and Wheeler in his history of North Carolina tells a story of how "Old Nash" saved a number of brave patriots from defeat at the hands of a Tory band. The men were about to be overcome, and the old woman came along and presented the Tory bunch with a jug of "Old Nash," and the defeat was turned into victory. Perhaps, there is about in spots quite a good deal of "Old Nash", but in June this year, according to the reports made to the list takers, the famous old brandy was a rather scarce article—only $440 worth of the rare old beverage being listed and in this amount was included other liquid properly of a much lesser value. But since we have come upon prohibition days, perhaps, many of the folks failed to make full reports for fear the people from otaer parts of the State would stampede Nash county.

While Nash has boasted of the best apple brandy in the world, it has hundreds of other things of which it can be much more boastful. This correspondent has taken trouble to go to the office of the Register of Deeds, and in this article it is his purpose to give some figures that will be interesting and at the same time show that Nash is not lagging when it comes to progress. The real and personal property of the white citizens of the county amounts to $7,278,962, and that of the colored citizens to $462,376 making a total of $7,741,338, for the entire county. There are 3,313 white polls and 2,005 colored polls making a total of 5,316. In the county there are 6,197 white children of school age and 4,199 colored children making a grand total of 10,396, and 3,389 of the white children live in local tax districts and three districts will hold elections December 17th.

The white people own 306,395 acres of farms valued at $2,443,916, and negroes 19,890, valued at $148,159, making a total of 326,795 acres, valued at $2,592,075. The whites own 2,559 town lots worth $1,891,236, and blacks 512 town lots, valued at $115,877, making a total valuation of $2,007,113.

The white people own 1009 horses worth $173,325, and 2,925 mules, worth $331,307, and the colored people own 422 horses worth $32,765, and 510 mules worth $50,453.

At least 102 white boys can enjoy playing with a goat and the negroes own 23, making a grand total of 125 valued at $131.

The white people report cattle to the number of 3,801, worth $62,353 and the colored people 1,042, worth $18,074. The former own 15,982 hogs worth $52,577, and the latter 4,534, with a value of $14,709. Only 253 sheep belong to white people and 31 to the colored, with a value of $381. Only 65 dogs are reported, but it is feared that there are as many dogs as sheep.

The white folks report 197 bicycles and the colored people 58, with a total value of $2,666. The white people value their fire arms at $12,656 and colored at $5,295. The white people have $51,903 invested in musical instruments and colored $4,730. The silver ware amounts to only $3,667 for the white people and a lone $2 for the colored. The colored population didn't report any whisikes, and the white people only $440 worth.

In June the white people owned $30,664 worth of farming implements and the colored $5,223. The white folks own mechanic tools to the amount of $6,129, and the colored people $530.

The household and kitchen furniture of the whites is listed at $205,556 and that of the colored at $17,879, making a total of $223,435. The former had $75,735 provisions in June and the latter $6,902 worth. The white people own $2,831 worth of scientific instruments, but it is not reported that the negroes have any scientific leanings other than is required to raise tobacco, peanuts, potatoes, cotton, wheat, corn, etc.

In June the white people had $125,392 in money, solvent credits to the extent of $650,616, and invested in stock other than listed by the corporation commission $23,939, and the colored people had on hand $5,034, solvent credits $6,185; and $282 invested. The white people report $17,749 in watches and jewelry and the colored $1,756. Value of cotton reported was $10,665, and of tobacco at $11,454 and $10 is reported invested in fishing apparatus. $343,674 is reported invested in merchandise and all other personal property for both races is placed at $556,696.

$24,022.58 in special taxes for roads and schools is something to boast about. Then the local tax paid by the city of Rocky Mount and by Spring Hope for schools is not included in this amount. Nash county is still making progress.

ROCKY MOUNT'S BIG ROBBERY.

Ring Leader Probably Captured—Death of Infant—Huge Potato.

(Special Star Correspondence.)

Rocky Mount, N. C., Nov. 28.—This afternoon Policeman J. M. Reams left for Goldsboro to return with Dock Williams, a negro, who was apprehended in Goldsboro this morning and who the police here have been seeking for the past week for what they believe was his part in th burglary of the mercantile store of Mr. J. D. Blount on Saturday night, November 19th. The negro will be brought back to Rocky Mount tonight and tomorrow his case will be given a hearing befre Recorder J. B. Ramsey. While the general trend of the evidence is not known, it is believed the police have in hand enough to secure conviction of this negro, who it is thought, was the ring leader of the entire affair. He is known not to bear the best of reputation and has served several road sentences.

By the early morning train today for Goldsboro the wife of the Williams negro, who has resided in this city since he ran away the day after the burglary, left for Goldsboro carrying with her two suit cases and a grip. While it is not known, the police believed this baggage contained some of the articles stolen. Aware of this fact the police immediately telephoned the chief in Goldsboro and giving him the identity of the negro wanted and asking him that he meet the train, and also to seize on to the luggage carried by this woman. Before the breakfast hour, the police in this city were in receipt of a telephone message saying that the man wanted had been taken and asked that an officer be sent for the prisoner. There was nothing said as to whether or not the baggage of the woman had been taken. The hearing of this case tomorrow will have an important bearing on the taking of the one or two others whom the police have reason to think had a part in the affair. More than half of the goods stolen have already been recovered and it is thought that if the luggage carried away this morning contain more stolen goods, and that if this is recovered it will materially reduce the loss, which was at first more than $600 worth of goods.

On Saturday afternoon there was exhibited in this city the largest sweet potato seen in this city in many a day and Mr. Charles Moore, an Edgecombe planter, enjoys the distinction of having raised it. The potato is of the Hamon variety and is fully as large as the regulation football and when placed on the scales it tips them at twelve pounds. Mr. Moore, who is a planter on the Daughtridge farm about two miles from this city, states that he made no especial effort to raise large potatoes, though there were a number of whoppers gathered, of which the one mentioned was the largest and that the land was simply broadcasted and stable fertilizer was used. He was not able to speak as to the entire yield, as they were not dug with a consideration of their being measured. The potato was without a doubt the largest that many in the city have ever seen, and it should be a matter of regret with Mr. Moore that he did not dig the potato just one week earlier in order that it might have been exhibited at the State Fair. To see such a yield, without especial effort, should make residents of Nash and Edgecombe, and even the entire eastern section of the State, think and think deeply of the great agricultural possibilities of Eastern Carolina.

From the home on Pearl street this afternoon at 3:30 o'clock, the funeral of Lewis Randolph Marshall, the year and a half old son of Mr. and Mrs. W. R. Marshall, was conducted by Dr. I. M. Mercer, the pastor of the First Baptist church. The remains were interred in the family plot at Pineview Cemetery. The child died yesterday following a short illness of infants' diseases. The bereaved parents have the sympathy of a number of friends and acquaintances.

EVENTS AT WHITEVILLE.

Schools to Observe North Carolina Day—Moving to Evergreen.

Special Star Correspondence.) (

Whiteville, N. C., Nov. 28.—Rev F. G. Wooten, county superintendent of Education, has mailed to every teacher the programme of the exercises of "North Carolina Day." Mr. J. Y. Joyner has designated December 23rd as the time to be devoted to the consideration of our State's history. He tells teachers to bear in mind that the observance of the day is obligatory. The County Teachers' Association will be held in Whiteville December 3rd. Prof. Wooten states that Happy Hill and Smyrna schools have arranged to secure rural libraries.

Mr. Robert White, formerly connected with the Bank of Columbus, Vineland, but now book-keeper for Brewer & Covington, of Evergreen, spent yesterday in Whiteville. Mr. White tells us that some 15 of 20 white families has purchased land around Evergreen and are preparing to move to this county. They are from Marlboro and Marion counties, S. C. He also tells your correspondent that land owners around his town have gone to work draining their fields, and they will soon organize an immense drainage district, embracing all of the country tributary to Evergreen. This is one of the finest farming sections of Columbus county, and is settled by progressive farmers. Evergreen the present season has shipped over 1,000 bales of cotton. Next year they intend to largely increase the crop acreage planted.

Strawberry growers have finished giving their plants a thorough working and heavy coat of fertilizers. While the acreage in Columbus has been slightly reduced this year, especial pains have been taken in working the patches in order to produce a finer and higher-priced berry. Famers are beginning to put nitrate of soda on their plants, just as the young berries appear, and those who have tried it say it about doubles the size of the berries. The berry-growers seem to be down on the Exchange methods of marketing the crop, as they claim it cost them heavily last season. It is not thought the managers of the Exchange will get enough farmers to turn them over their fruit to pay for opening up.

The section of Whiteville around the Court House is now working to have the electric lighting system installed at Vineland extended up town. Vineland is now lighted by electricity and a splendid plant has been eltablished.

Saves an Iowa Man's Life.

The very grave seemed to yawn before Robert Madsen, of West Burlington, Iowa, when, after seven weeks in the hospital, four of the best physicians gave him up. Then was shown the marvelous curative power of Electric Bitters. For, after eight months of frightful suffering from liver trouble and yellow jaundice, getting no help from other remedies or doctors, five bottles of this matchless medicine completely cured him. It's positively guaranteed for stomach, liver or kidney troubles and never disappoints. Only 50c at Robert R. Bellamy's.

GOLDSBORO AVIATION MEET.

Wednesday and Thursday Will be Red Letter Day in That City.

(Special Star Corespondence.)

Goldsboro, N. C., Nov. 28.—This will be a red letter week in the history of Goldsboro. The aviators and their Bleriot monoplanes wil arrive in Goldsboro on Tuesday, from Newark, N.J., where they have just concluded a most successful four days meet. Flights will be made each day from November 30th to December 3rd, inclusive, and one day during the meet a cross country flight across the city and return to Revilo Park of at least ten miles will be made.

With the fine climatic conditions, of Goldsboro, the monoplane should be able to break its own world's record for speed during this flight. This will truly be Goldsboro's Red Letter week, as preparations of all kinds are being made to entertain visitors, Revilo Park is being put in excellent shape to handle the large crowd, seats are being arranged for those who care to sit down and there will be standing room that will accommodate 50,000 people where they can see every move of the marvellous flying machines.

The railroads have given low rates for round trip tickets good for five days, and the schedules on all roads in and out of Goldsboro cannot be better. This will be the second Aviation meet held in the State, Raleigh having had the first. However, this will be the first time the Monoplane has been seen in the South. Goldsboro is justly proud to be the place and extend to the people of the State a most cordial invitation to join her people in celebrating this event.

HAPPY HUSBAND IN INDIANA

Mrs. Cook Takes Advice From Her Husband and Makes Him Happy.

Evans Landing, Ind.—Mrs. A. L. Cook, of this place, has made her husband (and herself) happy, by taking his advice. She writes, "For five years I suffered with awful pains. After I married I grew worse. I had to stay in bed and could not do my work. My husband urged me to try Cardui, and to please him I did. Soon I began to feel better. I kept on taking it. Now I am able to do my work and am much stronger than ever before. My husband is the happiest man in the State."

All women need the help of a strengthening tonic, now and then.

Do you feel the need of one, today?

If so, take Cardui, the woman's tonic. It will surely help you, as it has helped Mrs. Cook and thousands of others.

Cardui is no new untried remedy, but has a record of fifty years of genuine success behind it.

Don't try experiments. Take a remedy that has stood the test of time and experience.

The safe way is the best way.

Ask your druggist.

DAVID'S

YOU'LL find that, in greatly increasing numbers, men of most critical taste in clothes, men who can afford the best of things to wear, are coming to see the real value and the economy of fine ready-made garments. Very few men have their shoes made to measure now-a-days; shoes ready-made are the almost universal rule. Once in a while a man with an abnormally large head has to have a hat made for him; but he's so rare as not to count.

It's the same way more and more in clothes; the advantages of having clothes made to measure are rather doubtful unless you have it done by some one of the few great masters of the art; and even these advantages are more than offset by the disadvantages of long delay, of uncertainty as to fit and general satisfaction. When a man can step into a store like ours, and try on, ready-made, such clothes as these of

Hart Schaffner & Marx

it's amazing to us that anybody ever thinks of buying any other clothes. Not only by comparison with made-to-order clothes, but compared with any other clothes ready-made, we cant see why any man should think of wearing any other.

There's certainly no question about style; Hart Schaffner & Marx are style creators; many custom tailors and many makers of clothes copy what they originate; you'll find The Style Book in many a tailoring establishment, used as a guide. As for quality of fabrics and excellence of tailoring, you dont get any better, no matter who makes your clothes; all-wool, always, in a market where there's so much cotton adulteration that even the custom tailor isn't always trustworthy on quality, Hart Schaffner & Marx have the best tailors in the world.

As for fit, there's the point most of you hesitate about; but it's the easiest of all. For if these clothes dont fit you, dont take them; and you're not out anything but a few minutes' time. But we can fit you, or any other man; better fit than you'll get anywhere else.

Come and let us show you these clothes; they're worth seeing.

Suits $20 to $35 Overcoats $20 to $30

THE MORNING STAR

Published by the WILMINGTON STAR COMPANY Wilmington, N. C.

Entered as second-class matter at the postoffice at Wilmington, N. C., under act of Congress, March 2nd 1874.

FULL ASSOCIATED PRESS REPORT.

PUBLISHERS' ANNOUNCEMENT.

THE MORNING STAR, the oldest daily newspaper in North Carolina, is published daily except Monday, at $6 per year, $3 for six months, $1.50 for three months, 50 cents for one month, served by carriers in the city or by mail.

THE SUNDAY STAR, by mail, one year, $1; six months, 50 cents; three months, 25 cents.

ADVERTISING RATES may be had on application and advertisers may feel assured that through the columns of this paper they may reach all Wilmington, Eastern Carolina and contiguous territory in South Carolina.

Obituary sketches, cards or thanks, communications espousing the cause of a private enterprise or a political candidate, and like matter, will be charged at the rate of 10 cents per line, or if paid cash in advance, a half rate will be allowed. Announcements of fairs, festivals, balls, hops, picnics, society meetings, political meetings, etc., will be charged under same conditions except so much thereof as may be of news value to readers of the paper.

Advertisements discontinued before expiration of contracts are charged transient rates for time actually published. Payment for transient advertisements must be cash in advance. Contract advertisers will not be allowed to exceed their space at same rates or advertise anything foreign to their regular business without extra charge. Advertisements to occupy special place will be charged for according to position desired.

TELEPHONES: Business Office No. 51; Editorial and Local rooms No. 61. Call either if the other doesn't answer.

COMMUNICATIONS, unless they contain important news, or discuss briefly and properly subjects of real interest, are not wanted; and if acceptable in every other way, they will be invariably rejected unless the real name of the author accompanies the same, not necessarily for publication but as a guarantee of good faith.

Tuesday, November 29, 1910.

"What is a gentleman?" inquires the Savannah Morning News. He is a man who emulates the graces of a lady and refuses to gossip like two ladies.

We haven't heard so much lately about our various colonies. As the Democrats will figure largely at Washington the coming year, it is hoped somebody can be made to figure up what colonization has cost us in lives and treasure.

Says the Chattanooga Times: "Berlin has declared war on the protruding hat pin. Let there also be war on the hat which hides all of their faces but the chin." However, when the gentlemen folks see the big hat and the chin they will find some way of seeing the face.

Democrats who go to Washington looking for jobs should carry along meal tickets and return fare. The Democrats won the election, but the Republicans are still in possession of the offices which look good to those who haven't had a smell for some 14 or 15 years.

We are told that "paradioxydiamidorasenobenzol is one of the most effective of remedies." Well, to give something like that in broken doses to a man who has a chronic grouch or to a woman who complains and scolds evidently would be the proper thing. It would either kill or cure.

The biggest city in North Carolina hasn't got 40,000 inhabitants. Thus, we are afforded a fine opportunity to do some city building in this State during the next ten years. Wilmington ought to begin now before the next season at the seaside opens and calls for pleasure and inertia.

Secretary Ballinger, of the Interior Department, declares he is ashamed of his State (Washington) for giving women the right to vote. We venture the assertion, without fear of being disputed by the women of Washington, that they are ten times more ashamed of the State for having its Ballinger.

The facts and the circumstances are against the possibility that Mrs. Belle Elmore Crippen is in the land of the living. If she were living she wouldn't be long in showing up to pull the hair of Ethel Clare Leneve. At any rate, she would be pretty apt to break the sepulchral silence by putting all the blame on the woman in the case.

The Missouri Democratic League, of St. Louis, is getting busy with its boom of former Governor Folk for the Democratic nomination for the Presidency in 1912. People who have been under the impression that the Democratic party didn't have much Presidential timber should keep their ear to the ground and listen to the numerous booms.

We hope the Hon. Champ Clark, of Missouri, will be elected Speaker of the Democratic House of Representatives. We hope so because he is able, experienced and aggressive, and will make a good Speaker. We hope so because he is not the right man to nurse disappointment of a size that would play havoc with expectation and ambition of long standing.

A Washington dispatch tells of a man who sang at his own funeral by means of a phonograph into which he sang a hymn to be used at his burial. That is a little odd it is true, but it isn't half so remarkable as the fact that thousands of men "dig their graves with their teeth." A man can kill himself eating without being classed as a suicide when the funeral takes place.

BIG THINGS FOR CHARLOTTE.

Progress goes forward with such strides that some of its huger movements may startle us, but we need not be jarred by the big things that are liable to happen any day during this tremendous development era in the South. A country which has latent resources fully capable of development on a larger and greater scale need not now be surprised when gigantic achievements are announced. Indeed, we me may as well expect them.

Leastwise, we are not going to be surprised or jarred by anything that is liable to happen in and around North Carolina's "City of Electrical Energy." Therefore, we refuse to be even mildly startled by the announcement in Sunday's Charlotte Observer that the Southern Power Company, the Duke interests, has bought out the street railway, electric lighting and gas services of the Charlotte Consolidated Construction Company, popularly known as the "4 C's Company." The sale does not in any way affect the existence of the Charlotte Consolidated Construction Company except that it parts with the Charlotte Electric Railway and its holdings in the Charlotte Gas and Electric Company. The 4 C' Company retains its corporate existence and has large real estate interests which it will develop on a more extensive scale for the good of Charlotte.

The Southern Power Company for some time has been a competitor with the Consolidated Company as to electric power and lighting, but while it might appear that the great Power Company has crushed out local opposition, it means more than that for Charlotte. Securing the electric lighting field really is a small part of the deal which has been effected at Charlotte. Old things simply have given way to new developments which mean bigger things for Charlotte in every way.

We must infer from this deal that Charlotte is for all time the centre of the operations of the Southern Power Company which has developed several great electric power plants on the Catawba and Broad rivers. It makes Charlotte, as the Observer says, "the commercial centre of North and South Carolina." We are not surprised at that. That pre-eminence belonged to Charlotte by the logic of elligibility, the circumstances of progress, and the powerful factor of industrial development on general lines. It is only the natural gravitation of great things to the centre of gravity.

Charlotte will be the headquarters of the greatest electrical power company in the South and it is but the begnning of a broader development that will greatly magnify the importance of Charlotte as an industrial centre. Not alone will Charlotte be the centre of operations of the company from whose plants electric power is being transmitted for the operation of hundreds of cotton mills and industrial establishments in the Piedmont towns of the Carolinas and furnishing electric lighting to numerous cities in the two States in a territory embracing many hundreds of square miles, but probably the chief significance of the deal is that Charlotte will be the headquarters of the greatest suburban electric railway development in the South and possibly in the United States. Well may the Observer remark that "the entire significance of Saturday's deal is so sweeping and immense that it is difficult to grasp at first thought" and that "as a factor in the future industrial life of this city it is nothing short of epochal."

The Dukes, North Carolina's multimillionaire tobacco magnates, are the moving force in the Southern Power Company. Their great capital, gathered from all portions of the earth, has made it possible for the gigantic development which had its inception in the development of the waterpower resources in the rivers of the Piedmont where immense power has gone to waste through the centuries till the dawn of the Nineteenth century. Now that the transmission wires from their great plants penetrate and extend in all directions into a vast territory of the Carolinas, quickening the industries and infusing new life into hundreds of growing cities, we are now to witness the gathering of power for vast development in the construction and operation of trolley lines with hundreds of miles of trackage. Not alone will the electric current now harnessed be utilized to turn the wheels of industry, but will send electric cars driving rapidly from city to city, affording quick and comfortable travel and ready and economical transportation for traffic in all its branches. Arrangements already have been perfected for the development of an imposing electric trolley line system, and speaking of that feature of the big deal at Charlotte, the Observer says:

"From Charlotte will radiate the Interburban lines across the Catawba river to Mount Holly, from Mount Holly to Gastonia, from Gastonia perhaps by way of Shelby to Gaffney, S. C., Gaffney to Spartanburg, Spartanburg to Greenville, Greenville to Belton and connecting at Belton with a ten-mile line already being operated between that place and Anderson, S. C., in connection with the local system of Anderson, and then on possibly to Greenwood. Northward a line is projected to Concord, Salisbury, Greensboro and Durham. The route to be pursued to Concord is in doubt, as the way is marked by some heavy work which it is desired to avoid. The tracks can be laid past Newell or on what is known as the Salisbury big road passing by the county home. Once Salisbury is attained, the route will follow closely the Southern Railway, passing through the towns which are clustered along its tracks. Even a casual survey of the situation reveals the strategic nature of the position which Charlotte will occupy in the electrical district which is to spring into life with the unfolding of carefully considered plans.

"It is probable that the new opportunities of transportation opened up will be instrumental in affording Charlotte relief from the discriminative freight rates which constitute the only obstacle to a remarkable growth. For instance, if the Seaboard offers local shippers a better rate from Anderson to New Orleans than the Southern will give, it will be easy to load the shipment into an electric freight car on which it will be taken to Anderson and transferred to the Seaboard line. The same will be true in a converse case. The extent of the operation of this principle is of course problematical as yet, but it is well within the range of probability that Charlotte will be able to shake off to a considerable degree the shackles which have hitherto bound her even as a hobble skirt.

"The details of the interburban system, which are myriad, have not been worked out yet. The road to Gastonia will probably be built first. Connection to the North may be made without the outside cars entering the city at all, transfers being effected. It is certain that the freight cars will not traverse the main streets of the city, a belt line around the city, either circular or semi-circular from the west to the north, being proposed as a solution to this problem. It has not been decided yet on what streets the connecting tracks will be laid. The passenger cars may enter the city on West First street, traversingthat to North Tryon, turning north there and passing through Independence square and on to North Charlotte, where access to the outlying districts would be obtainable.'

Thus, we observe the greater significance of this deal for the Queen City, and while any city may envy Charlotte's good fortune, we congratulate the Queen City and hope she may realize her fullest expectations from what evidently means for her inevitable development of great magnitude. The Observer says the amount of the consideration paid by the Southern Power Company for the properties acquired from Mr. E. D. Latta and his associates who sold out their electric railway and lighting interests, remains undivulged, "yet it is conceeded on all sides that it must have been an extremely high figure, because of the character of the properties, their high state of efficiency and the splendid organization by which they were managed.'

Mr. Latta has been a great force in the development of Charlotte and he laid the groundwork for the greater development which is to take place. Such men as he are tremendous factors in the industrial and commercial life of a city, and while the sale of his properties is of great significance to Charlotte, from the broader perspective, it is all the more gratifying that he will not retire from active life but will remain in Charlotte to do things on the extensive scale which has marked his active business life.

That means a great deal to Charlotte, as it has meant in the past, and while Charlotte is to be congratulated upon the evident magnitude and portentous meaning of the deal just consummated, she is to be felicitated upon the fact that she will retain in her forward march a man with such versatile capabilities for big achievements as Mr. Latta. Mr. Latta is big enough promoter and developer for Charlotte to lend him at odd times to her neighbors.

Bishop Kilgo is a preacher who says things. He says things that bring on more talk and then some more.

A new play entitled "The Nest Egg", is being produced on the stage in New York. The probability is that it's "rotten" and its stage "settings" won't help it out a bit.

A Missouri man won a bet of $10 by swallowing a hen egg whole. However, a doctor had to be called to him and it is pretty safe to bet that the doctor will make him shell out.

A New York thief stole 45 cases of champagne and took along the horses and wagon upon which it was loaded. Most likely the thief was overcome with a desire to be his own Santa Claus.

Will Promote Beauty.

Women desiring beauty get wonderful help from Bucklen's Arnica Salve. It banishes pimples, skin eruptions, sores and boils. It makes the skin soft and velvety. It glorifies the face. Cures sore eyes, cold sores, cracked lips, chapped hands. Best for burns, scalds, fever sores, cuts, bruises and piles. 25c at Robert R Bellamy's.

HOW TO RAISE FINE TOBACCO.

There is nothing like publicity to create interest in any undertaking, whether it is agricultural, industrial, social, political, or what not. Publicity in the daily and weekly newspapers of North Carolina has stirred our farmers to greater efforts in all lines of agriculture and thus have aided the State Agicultural Department in a tremendous work in behalf of one of the State's greatest resources. We have heeard a good dal about progress in cotton and corn growing but now comes something about what a Wilson county man knows about raising fine tobacco.

The Wilson Times, which is published in one of North Carolina's finest tobacco sections, did a good thing when it invited the tobacco growers to exchange views in its columns with reference to tobacco production, for the tobacco growers are furnishing us something interesting in their line. For instance, Mr. John Harrell, of Walstonburg, N. C., writes the Times, November 25, that from 15 acres of land he has this season sold his tobacco crop for more than $3,000. Mr. Harrell produces a fine grade of tobacco, and as many tobacco growers will be benefitted by what he says, we produce here what he writes to the Times:

"One of the most essential features in the growing of a desirable type of tobacco in this section is to see to it that the plant bed is sowed early enough so as to insure an early setting out of the plants. I have generally, like Mr. Narron, gotten the best results when the crop was pitched between the 1st and 15th of April. Next to this in the growing of a desirable type of tobacco is to watch the "suckers" that will from time to time grow on them. They sap the very life blood of the plant and should never be allowed to remain on a plant after they grow even as long as two or three inches. To secure best results the tobacco should stay on the stalk until it is thoroughly ripe. If it is put in the pack-house when it has not fully matured all the expert curers in the world could not get a desirable type of tobacco out of it. Even if it attains a high color, the fine texture will be lacking. I have been raising tobacco for over sixteen years and have never gotten less than $100 an acre, regardless of the seasons or the price."

While we are making North Carolina lands produce two bales of cotton and from 50 to 226 2-3 bushels of corn per acre, let's get more and better tobacco and a greater yield of our fine peanuts and other crops with less labor on fewer acres.

CURRENT COMMENT.

A Pennsylvania preacher is to be tried on a charge of heresy. He was probably caught voting against a Republican candidate.—Chicago Record-Herald.

It is asserted in one of the Philadelphia papers that "the Contributing Editor takes defeat like a mollycoddle." That is the most unkindest cut of all.—Savannah News.

The official count shows Dr. Faison's maojrity in the Third Congressional district to have been 3,000. And there were folks with little enough political gumption to fear that he would be defeated.—Greensboro Telegram.

The Charlotte Chronicle suggests that the Charlotte to Wilmington highway project be consolidated with the State Highway propect from Charlotte to Salisbury and Asheville. This proposition meets the hearty approval of The Post and all the highway men of this section.—Salisbury Post.

Political conditions in Massachusetts make party lines almost meaningless. Most of the Democrats and many of the Republicans are in accord upon the tariff question and upon the Lodge question. Massachusetts must not be misrepresented in Washington either by Lodge or another Senator of privilege. A fusion in this instance is feasible. It would be honorable to all concerned, because it would be responsive to public opinion. The Democrats, themselves in the minority, should be active in its promotion.—New York World.

The Burr brothers had what in Wall Street is called "the sucker list"—that is, the names of persons who "bite" readily. It must be lengthy. One of the discouraging signs of the times is the eagerness with which temptations for reckless investments prevail. Not only inexperienced women and young men just out of school, but men of mature years and some success sometimes snap up propositions that should not on their very face, deceive anybody. The love of money is the root of a good deal of credulity.—Washington Star.

ELOPING COUPLE MARRIED.

Knot Was Tired At Rocky Mount on Sunday Afternoon.

(Special Star Correspondence.)

Rocky Mount, N. C., Nov. 28.—When the crowd of Sunday afternoon loafers got wise to the fact yesterday afternoon that there was "going to be a marriage at the Elkhorn Cafe in a few minutes," it did not take long to attract a large attendance, most of whom were on hand to see if it really would occur, who the contracting parties might be, and why on earth should they select such an unusual place for performing the nuptials. Not that the cafe was not one of the best in the city, but who on earth would select a Sunday afternoon and a prominent cafe in the city as a place for the plighting of their troth when the parsonage and the homes of the Justices of the Peace stood open to them.

The crowd was present and what they had been called there for really occurred, and Miss Bessie Laddie and Mr. William Viverette were the contracting parties in the ceremony, which was performed by Capt. John Thorp, J. P., of Edgecombe.

From what could be learned it was a runaway couple, and there were parental objections upon the part of the girl's parents who claim that she is not of marriagable age. They presented themselves in Nashville during the morning yesterday and asked for license, so we are informed, and the parents were on hand and spoiled matters. Taey came to Rocky Mount yesterday afternoon and with the help of friends the license was secured from Tarboro, of Edgecombe county, an automobile having been called into use to make the trip to and from Tarboro. By appointment the Justice, the young lovers and the friends who had hied to Tarboro to get the license, were to meet at the cafe at 5 o'clock and all hands were on time, so in a few moments the young couple had said the words that made them man and wife.

We are reliably informed that the bride is a resident of Nash county and lives near the Southern boundary of the county, in the vicinity of Elm City. The groom is a son of Mr. Joss Viverette of Cooper's township. On the marriage license the age of the groom was given at twenty years while the bride was put down as nineteen. Both of them looked to be about the ages as stated by the couple.

VESTRYMEN FOR YEAR NAMED

Elections Yesterday Afternoon and Evening at St. John's. St. James' and Church of Good Shepherd, Episcopal.

Vestrymen for the ensuing year were chosen yesterday and last night by St. John's, St. James' and the Church of the Good Shepherd, Episcopal. The election at St. John's was held in the afternoon and at the other two churches last night. All were participated in by a large number and greater interest than usual was shown.

The election at St. John's was held in the Parish House from 12 o'clock tto 3 o'clock, and resulted in election of the following: H. G. Smallbones, Sr. Geo. S. LeGrand, Prof. Washington Catlett, H. E. Wilder, J. Hicks Bunting, J. F. Woolvin, Bertram Quelch, J. A. Floyd and W. H. Topp. The vestrymen held a meeting last night at the rectory and organized by the election of the following officers:

Senior Warden—H. G. Smallbones.

Junior Warden—Prof. Washington Catlett.

Treasurer—Geo. O. Gaylord.

Clerk—Bertram Quelch.

The several committees will be appointed at the next regular meeting of the vestry.

At St. James' the election was held in the Parish House from 8 to 9:30 o'clock last night the following being named: J. V. Grainger, S. M. Boatwright, J. H. Boatwright, Anson Alligood, Wm. Calder. J. I. Metts, T. O. Bunting, Geo. B. Elliott, J. W. Murchison, J. Allen Taylor and George Rountree. The organization meeting will be held later.

At the annual election at the Church of the Good Shepherd, held last night, the following vestry was chosen: Jas. H. Burriss, D. D. Barber, J. M. Lord, Henry Willoughby, R. S. Bridgen, E. J. Irving (re-elected), and C. H. Hubbard, a new member.

After the adjournment of the Parish meeting the building committee held a very interesting meeting and reports show that substantial progress had been made in collecting the pledges for the new church. The pledges are all due in full by January 1st and it is hoped the necessary amount will be in hand at that time.

No soliciting of gifts will be made by the members from persons outside the congregation. Any persons desiring to make donations to the church building fund are requested to notify some member of the vestry, or the rector. A number of persons have expressed a desire to help in the splendid work and it has been decided to give them an opportunity without any general solicitation.

ANNUAL SERMON TO JUNIORS.

Preached at Fifth Street Methodist Church Sunday Night.

The annual sermon to the two local councils of the Junior Order, United American Mechanics, was preached Sunday night at Fifth Street Methodist church by the pastor, Rev. K. D. Holmes. Members of Jeff Davis and George Washington Councils, of the Junior Order, assembled at their hall at 7 o'clock and proceeded to the church in a body and occupied seats which had been reserved for them. In addition to the members of the order there were present a large number of the memberrs of the congegation and others, every seat in the edifice being taken. Mr. Holmes delivered a particularly strong sermon and his remarks were listened to with deep interest. At the conclusion of the discourse, Wm. J. Bellamy, Esq., acting for the committee, presented to Mr. Holmes, in behalf of the two councils, a large and handsome basket of flowers in appreciation of his excellent sermon and as a token of the high esteem in which he is held by the members of the order in this city. The flowers were accepted by Mr. Holmes in a few appropriate remarks. This was one of the most impressive features of the service.

NEW DREDGE HAS ARRIVED.

Towed Here From Cape Cod by Tug Albatros—Channel Dredging.

The new dredge, owned by the Southern, Bowers Dredging Company, of Galveston, which has been on her way to Wilmington from Cape Cod for some two weeks, arrived Sunday morning in tow of the tug Albatros, Capt. Hickman, and will begin work this week in the Cape Fear river.

The tug and dredge encountered god weather almost the entire trip from Cape Cod and made a stop of a few days at New York on the voyage down the coast. Mr. A. F. Doane, superintendent for the dredging company, for the work in the Cape Fear, will become a resident of this city soon, moving here from Beaufort, where he has had charge of a portion of the dredging for the Inland Waterway. The dredge is known as "No. 9" and was formerly at Galveston. The Albatros cleared yesterday for New York.

WHAT CURES ECZEMA?

We have had so many inquiries lately regarding eczema and other skin diseases, that we are glad to make our answer public. After careful investigation we have found that a simple wash of Oil of Wintergreen, as compounded in D. D. D. can be relied upon. We would not make this statement to our patrons, friends and neighbors unless we were sure of it—and although there are many so-called eczema remedies sold, we ourselves unhesitatingly recommend D. D. D. Prescription.

Because—We know that it gives instant relief to that torturing itch.

Because—D. D. D. starts the cure at the foundation of the trouble.

Because—It cleanses, soothes and heals the skin.

Because—It enables Nature to repair the ravages of disease.

Because—The records of ten years of complete cures of thousands of the most serious cases show that D. D. D. is today recognized as the absolutely reliable eczema cure.

Drop into our store today, just to talk over your case with us.

Robt. R. Bellamy, Wilmington, N. C.

BIG SUNDAY SCHOOL RALLY

Programme Announced for Meeting to be Held at Grace Church Tuesday and Wednesday, December 13th and 14th.

Arrangements for the big Sunday School rally to be held at Grace Methodist Church Tuesday and Wednesday, December 13th and 14th. are being rapidly perfected by the local committee in charge and the programme for the several sessions was announced yesterday. The meeting will be held under the auspices of the International Sunday School Association and will be attended by officers of that organization as well as officers of the State Association.

Similar meetings will be held in a number of other North Carolina cities. In the party touring the State will be Dr. Franklin McElfresh and Mr. Hugh Cork, workers of the International Association; Rev. R. M. Andrews, president of the North Carolina Sunday School Association, and Mr. J. Van Carter, the general secretary.

The first session of the meeting here will be held Tuesday afternoon, December 13th, at 3 o'clock. Following the devotional exercises Dr. Franklin McElfresh will address the meeting on "The New Call for Christian Leadership," at the conclusion of which Mr. Carter will talk on "Teacher Training."

The night session begins at 7:30 o'clock and there will be two addresses as follows: The Trained Worker a Necessity for Christian Progress," Dr. Franklin McElfresh; "Parents Problems; Can the Sunday School Help to Solve Them?" Mr. Hugh Cork.

Three sessions will be held on the following day. At the first session, which convenes at 10 o'clock there will be two addresses as follows: "Sunday School Management," Mr. Hugh Cork; "Our Bible and Character Building," Rev. R. M. Andrews. At the afternoon session Rev. R. M. Andrews will discuss "The Sunday School Teacher," and Mr. Cork will make an address on "Preparation of Ourselves." The concluding session will be held at night and the speakers will be Mr. Andrews and Mr. Cork, the former speaking on "Jesus the Teacher," and the latter on "What the Sunday School Association Stands For."

The meeting will be non-denominational in character and the public generally will be invited to attend. There is already much interest in the proposed meeting and it is expected that the attendance will be large at each session.

SPECIAL MEETING PROBABLE.

Aldermen May Further Consider Sale of Sewerage Bonds.

It was stated yesterday afternoon that a special meeting of the Board of Aldermen will probably be held this afternoon for the purpose of further considering the proposed sale of the remaining $100,000 worth of sewerage bonds. A new proposition is said to have been received from a local bank and the meeting would be for the purpose of considering the new offer.

However, it is not the need of the $100,000 at the present time which is holding in abeyance the work on the proposed new sewerage system. The Water and Sewerage Commission has stated that the money in hand will be sufficient for the six months immediately following the adoption of the plans. The plans for the work have not yet been adopted. It is understood that the commission takes the position that it has been authorized to install a new sewerage system and that in the absence of any notice to the contrary from the Board of Aldermen and Board of Audit and Finance will proceed to the adoption of plans and the purchase of materials, etc. The records of the Board of Audit and Finance show that more than a year ago the commission received notice from that body to proceed with the work. The commission has received no request to hold up the matter until further action is taken by the Board of Audit and Finance. The Board of Aldermen has twice instructed the commission to proceed with the installation of a new system. It is understood that within the next few days the commission will adopt plans for the new plant and take the other necessary steps incident to the installation of the system.

You can buy one dollar kid gloves and have them fitted at C. H. Fore & Co's. **

MAKE THIS TEST.

How to Tell if Your Hair is Diseased.

Even if you have a luxuriant head of hair you may want to know whether it is in a healthy condition or not. 98 per cent. of the people need a hair tonic.

Pull a hair out of your head; if the bulb at the end of the root is white and shrunken, it proves that the hair is diseased, and requires prompt treatment if its loss would be avoided. If the bulb is pink and full, the hair is healthy.

We want every one whose hair requires treatment to try Rexall "93" Hair Tonic. We promise that it shall not cost anything if it does not give satisfactory results. It is designed to overcome dandruff, relieve scalp irritation, to stimulate the hair roots, tighten the hair already in the head, grow hair and cure baldness.

It is because of what Rexall "93" Hair Tonic has done and our sincere faith in its goodness that we want you to try it at our risk. Two sizes, 50c and $1.00. Sold only at our store—The Rexall Store. J. Hicks Bunting Drug Co.

BIG WATERWAYS CONVENTION

Field Secretary Here in Interest of the National Rivers and Harbors Congress—Talks of Possibilities of Wilmington

In the city yesterday was Mr. S. A. Thompson, field secretary of the National Rivers and Harbors Congress, who has been advocating the development of waterways for 25 years and who is enthusiastic over the possibilities of the country when the several projects of the organization have been completed. His tour through the South at the present time is mainly for the purpose of arousing deeper interest in the convention of the National Rivers and Harbors Congress to be held in Washington, D. C., December 7th, 8th and 9th.

He spent a portion of the day in conference with Mr. James H. Chadbourn, president of the North Carolina Waterways Association, and other officers of the organization and business men of the city, impressing upon them the importance of sending a large and strong delegation from North Carolina, Wilmington in particular, to the forthcoming National convention. He received assurance that the State would be well represented and that a large number will go from this city. Mr. Thompson endeavored to impress upon all the fact that the development of the many waterways will not be realized so as to benefit those of the present generation except throught hearty co-operation with all other parts of the country through the National organization. The waterways congress is not asking for charity, but merely asking the people of this section to drop their business for a few days, as busy men in other parts of the country will do, go to the big convention and all pull together for the development of the waterways.

To secure the aid of Congress, which alone can provide the necessary funds to put through the projects which mean so much for the development of the country, it is necessary to have a live, concerted movement. It it is left to the individual sections it will be generations before all the projects could be completed. Therefore, it is very important that people all over the country co-operate with the National organization and urge upon Congess the adoption of a bill providing for all the projects. Mr. Thompson, who is known among his friends, as "Deepwater" Thompson, would like to see Congress ascertain just what is desired in the way of developing the many waterways of the country and then provide the funds by issuing bonds, or otherwise, and begin work at once and continue operations until every project has been completed.

It is always desired to have a large attendance at these conventions and especially so this year. The sentiment o the country is now to a point where the policy advocated by the organization can be adopted. The next House will be Democratic and there will be many new members, another reason why the convention this year should be the largest attended in the history of the organization. It is possible that at the next Congress the bill desired by the National Waterways Association will be adopted.

Representatives of the organization have visited practically every State in the Union and each will send a large delegation to Washington for the convention in December. Mr. Thompson noticed in a paper yesterday where the bill favored by the organization is to be presented when Congress convenes again and he hopes that statement is true.

Mr. Thompson was told by Capt. Earl I. Brown, United States engineer in charge of this district, that unless Congress adopts a bill this year the engineers' offices will have to close up, except for the completion of the work now under contract. This is another great reason, said Mr. Thompson, why the approaching convention should have the largest attendance it has ever had. Mr. Thompson thinks the only business way for the government is to do like the railroads, ascertain what is wanted and then appropriate the money to do it. The wants and needs of the country can best be brought to the attention of Congress through the National association.

The National association advocates that the work shall be done without delay and completed within a given time. The last bill put through Congress contained a provision that the Ohio river improvement must be completed in 12 years and the lower Mississippi in 20 years. The action of one Congress is not legally binding on another, but when the Secretary of War is authorized to continue a work and complete it the action is legally binding and it becomes the duty of the Secretary of War and the engineers to see that the provisions of the bill are caried out.

Mr. Thompson talked interestingly of the possibilities of Wilmington and this section, with the realization of the several projects now being agitated. He understood that a few years ago Wilmington had 8 1-2 feet of water over the bar; now she has 30 feet at high water and 26 feet at mean low water. He had been told at the negineer's office that a new dredge had been received and in a short time, when the shoals have been cut out, boats drawing 24 feet may enter here at low water. Business will increase with the deepening of the channel and the people will be justified in asking for 30 feet, then 35 feet and so on. Mr. Thompson said he thinks the improvement of the Cape Fear river above Wilmington means more to Wilmington than many of her business men realize. An eight-foot dependable channel means the growth of all the territory affected by it. Mr. Thompson has found that the business men all over the country do not, as a rule, realize the possibilities of their towns with the development of waterways. He spoke of several towns in Germany and Holland which have gone forward at a tremendously rapid rate since the development of the waterways.

Every time there is an increase in the depth of a channel and terminal facilities are improved, there is an increase in business. Mr. Thompson declared that the deepening of the channels must come first and then provide the terminal facilities. He said that if the government would guarantee a depth of 30 feet not only at the bar but up to Wilmington by January 1st, 1915, the city would be justified in spending thousands of dollars, even a million dollars, in terminal improvements. The people would then have something upon which to work.

Given a depth of 26 feet at low water in the Cape Fear below Wilmington, and eight feet above Wilmington, and eight feet in the numerous other navigable streams in this section, there will be such an improvements in business activity in this city as never been known before. Wilmington could then be spending millions to take care of the business brought about by the improvements. Mr. Thompson thought this would be realized. He spoke of the development of North Carolina in every line and referred to the unexcelled soil. Wilmington, he said, is naturally a terminal point. With the development of the waterways project, Wilmington will be the interchange point. The ocean steamers and river boats, railroads and wagons, etc., will have a common meeting place here and freight will be transfered from one to the other, all working in perfect harmony, having realized that in this way business for all has been increased.

Mr. Thompson was glad to learn from Mr. Chadbourn that Mr. Walters, of the Coast Line, had promised hus support and hearty co-operation in the development of the waterways in this section. Railroad officials are gradually coming to the point where they can see that the development of waterways means more business for them and ar giving their endorsement and support to the projects.

Mr. Thompson arrived in Wilmington Sunday from Columbia, S. C, and left last night for Fayetteville He goes from there to Newbern and to other points in this State and Virginia.

Funeral of Mrs. Montgomery.

The funeral of Mrs. Mildred L. Montgomery, wife of County Commissioner J. P. Montgomery, whose death occurred Saturday afternoon at the home of her son-in-law, Mr. H. L. Horne, on Myrtle Grove Sound, was held from the late residence Sunday afternoon at 3 o'clock, conducted by Rev. W. L. Rexford, pastor of Bladen Street Methodist church. The pallbearers were Messrs. Woodus Kellum, G. W. Rogers, E. W. Rogers, H. M. Horne, Eli Sontherland and Owen King. Besides her husband and children, Mrs. Montgomery is survived by two sisters, Mrs. Annie Branch and Mrs. S. J. Rogers and one brother, Mr. W. M. Sneeden.

NEW BEACH HOTEL.

Meeting of the Stockholders Wednesday—Mr. Hooper Here.

That Wilmington people want the new hotel for Wrightsville Beach for which they subscribed $50,000, is shown by their determined effort to succeed in the enterprise. A meeting of the stockholders is called for Wednesday at 12 o'clock at the rooms of the Chamber of Commerce and every stockholder is earnestly requested to be present. Fifty thousand dollars has been subscribed by the Wilmington business men, numbering over 100, and this meeting is for the purpose of informing them just what progress has been made.

Mr. Charles E. Hooper, of Charlotte, who is the popular manager of the Buford Hotel of that city and who is to be the manager of the new beach hotel, arrived in the city yesterday. Mr. Hooper personally brought in $25,000 of additional subscriptions and is enthusiastic over the outlook. He says that he believes Charlotte will fill the building the greater part of the Summer and is firmly convinced that as an all-year-round resort the hostelry will be very popular.

The public is requested to visit the show window of Messrs. C. W. Yates & Co., where a color sketch of the building is on display. The erection of the new hotel will mean much to Wilmington and this section and those behind the enterprise say that the building will be erected.

THE RECORDER'S COURT.

Negro Man Given Six Months on County Roads for Larceny.

The principal case in the Recorder's court yesterday morning, presided over by Substitute Recorder Harriss, owing to a slight indisposition of Recorder Furlong, was one in which Douglas Peterkin, colored, was charged with the larceny of groceries from the store of Mr. James Elder, 11th and Princess streets, Saturday night. The defendant was found guilty and sentenced to six months on the county roads. A. T. Croom, a white man, was found guilty of carrying a concealed weapon and was assessed $25 and the costs. Several drunks were required to pay the usual amount for such offenses.

Mass Meeting Sunday Afternoon.

The mass meeting at the Bijou theatre Sunday afternoon at 5 o'clock under the auspices of the Y. M. C. A. was largely attended and great interest was manifested. The speaker was Maj. Edward White, Salvation Army divisional officer of the South Atlantic division, comprising North and South Carolina and Georgia, whose subject was "Twice Born Men." The address was very able and interesting and made an impression upon all who composed the audience. Several vocal and instrumental selections were rendered by Miss Seigman, who has the title of captain, and is accompanying Major White on his official visitation of the Salvation Army posts. Major White conducted several services while in the city and was heard by a large number.

PLANT AND SITE SOLD.

P. D. Camp Highest Bidder for Property of Angola Lumber Co.

Pursuant to advertisement, the manufacturing plant and the site of the Angola Lumber Company was sold at public auction at the Court House door yesterday at noon by the trustee in bankruptcy, Mr. M. J. Heyer, and the highest bidder for the property was Mr. P. D. Camp, of Virginia, whose bid was $27,000. The property was first offered separately and then as a whole. Under the sale for parts of the plant, Mr. H. Heyer bid $2,000 for the saw mill and accompanying machinery; $1,500 for the planing and certain machinery, and $10,000 for the site upon which the plant is located. Then the property was offered as a whole and Mr. Camp bid $27,000. The sale is subject to confirmation by court. The plant suspended operations some months ago.

THE C. W. POLVOGT COMPANY'S TOY DEPARTMENT

¶We have opened and will welcome the boys and girls to our Toy Opening, which will be held in the store adjoining us, formerly occupied by the Delmonico.

Toys - Dolls Games

¶*Let the Toys awaken memory in your own mind—memory of the days when your parents took you to a toy store to see Santa Claus and his fascinating arrays, all spread out for you in Toyland.*

¶*You will live over your own youthful expeditions to Toyland in the delight of your children.*

GoCarts, Wagons, Coaches

¶*We are showing the best selected line of undressed dolls ever shown by us.*

¶*It is impossible for us to enumerate the toys, and 'tis unnecessary, for you know all about Polvogt's toys. The prices, too, are right.*

¶*On account of the department being separate, we will sell for cash only, and no goods will be sent on approval.*

¶The Christmas goods are also ready for your inspection in our Department Store. New Bath Robes, New Handkerchiefs, New Gloves, New Umbrellas, New Hosiery, New Furs and a thousand other articles suitable for Christmas gifts. We invite you to inspect our entire stock. We have planned for a big holiday trade.

The C. W. POLVOGT COMPANY

SOCIAL and PERSONAL

Brief Mention, News of Societies, Meetings, Etc.

Mrs. Philip W. Delano has returned from Portsmouth, N. H., where she visited during the Summer.

* * *

Mrs. George Doyle, formerly of Wilmington, but now of Philadelphia, is visiting her daughter, Mrs. Robert Farmer, No. 215 Ann street.

* * *

Mrs. Geo. P. James, of Washington, D. C., arrived in the city Sunday morning to visit her mother, Mrs. Geo. Peck, at her home, 311 South Third street.

* * *

Mrs. Harry Gould Latimer, Jr., and little son, of Auburn, N. Y., are guests of Mrs. Latimer's mother, Mrs. Geo. N. Harriss at her home on South Fifth street.

* * *

The annual meeting of the Wilmington chapter, of the Red Cross Society, will be held this morning at 11 o'clock at the Colonial Inn. Matters of importance will be discussed and a full attendance of members is desired.

* * *

Mr. John F. Kneisel will give a german in the Masonic Temple Wednesday night from 9 o'clock to 1 A. M. This dance is given especially for those who are patrons of the Friday night dance, however, any one wishing to attend may do so by application to Mr. Kneisel. The hall will be decorated for the event and music will be furnished by Mr. Kneisel's Orchestra of six pieces.

* * *

Mr. Gray Hicks has returned from Durham, where he went to represent the Wilmington High School in the declamation contest at Trinity College last Friday night, news of which has been carried in the telegraphic columns of the Star. Gray made good, just as his friends thought he would, and he has been warmly congratulated by his schoolmates and other friends.

* * *

Mr. and Mrs. Pembroke Jones and Miss Hanna Bolles, the latter having been the guest of Mrs. Jones at Newport, and Lenox, Mass., arrive yesterday morning and went through to Mr. Jone's beautiful estate, Arlie-on-the-sound. This is the first time that Mrs. Jones has been here since her serious illness of typhoid fever, and her many friends will be glad to know of her return and that she has fully recovered.

* * *

"A Regular Flirt," will be presented in the assembly hall of the Howard Relief Club, corner Front and Orange streets, by a number of young ladies and gentlemen of the organization, Friday night, December 2nd, beginning at 8:30 o'clock. It promises to be one of the most delightful amateur performances given in this city in some time and will doubtless be largely attended. The proceeds will be donated to the club.

* * *

Saint Mary's Guild of Saint James' Church will hold its regular Christmas sale of fancy work, candy and toys at the Parish House, Tuesday afternoon, December 13th. This sale promises to be quite an event for the Christmas shoppers, who will find a beautiful display of dainty things on sale; just what they want for Christmas presents. Everybody is cordially invited to come and see what nice things the Guild has for sale.

SUNDAY MARRIAGES IN COLUMBUS COUNTY.

(Special Star Correspondence.)

Whiteville, Nov. 28.—Prof. Frank L. Jernigan, principal of the Oakdale High School, at Marietta, Robeson county, and Miss Florence Y. Taylor, daughter of Mr. Zack Taylor, a prominent citizen of Ranson township, at the home of the bride's parents yesterday, in this county, were married. They returned immediately after the ceremony to Marietta, where they will make their future home. Prof. Jernigan is one of the best known teachers in this county, having taught a number of schools here. Rev. F. T. Wooten performed the ceremony.

Mr. Marion Lennon, a progressive young farmer of Tatom's township, and Miss Ledoarh Lennon were united in the holy bonds of matrimony yesterday, Rev. Chas. C. Smith, officiating.

PRINCETON GLEE CLUB AT ACADEMY DECEMBER 23RD.

It will be of great interest to the music loving people of this city to learn that the Princeton Glee Club has included Wilmington in its annual tour of a few of the Southern cities. party of students, who will appear at There will be 50 members of the the Academy of Music on Friday, Dec. 23rd. The Glee Club is led by Mr. L. T. Getty, of New York; the mandolin club is led by Mr. I. F. Bennett, of Illinois, and Mr. E. Gray, of New York, is leader of the banjo club. The concert the Princeton boys gave in '07 will be remembered with much pleasure.

The party travels by special Pullman the entire distance on this tour, 2,300 miles, giving concerts in the following cities: Baltimore, Washington, Wilmington, Augusta, Atlanta, Jacksonville, Charleston, Savannah and Richmond. It is quite probable that while here the members of the Glee Club will be given a dance or reception by the young people of the city.

MARRIED SUNDAY AFTERNOON.

Miss Hettie D. Moore Bride of Mr. John L. Davis.

Miss Hettie D. Moore, daughter of Capt. Robt. J. Moore, of Sneed's Ferry, and Mr. John L. Davis, of this city, were united in marriage Sunday afternoon at 2 o'clock, the ceremony being performed at the home of the bride's sister, Mrs. J. E. Smith. Elder J. E. Smith officiated. A number of friends and relatives of the couple attended the event. Among the out-of-town guests were the father of the bride and a sister, Mrs. Sadie Robinson. Mr. and Mrs. Davis will reside at No. 612 Wooster street. The groom holds a position with the Acme Tea Chest Company in this city and the bride is an attractve young lady.

BOYS' MEMBERSHIP CONTEST

Campaign to Increase This Department of Y. M. C. A. Begins Today—Meeting of Boys This Afternoon—Prizes.

The Young Men's Christian Association has planned a membership contest for the boys of the association, which promises to surpass any contest that has ever been set up in that department. Not only will every boy work for himself but there will be prizes given for the team whose man wins the most points.

Alex Taylor & Co., athletic dealers, of New York, donated the first prize, which is an excellent all-wool coat jersey, and the boy that gets this prize will find himself well repaid for his efforts. The second prize, given by Mr. R. C. DeRosset, stationer and bookseller, in whose windows the pictures of former classes and teams that have represented the association are displayed, is a set of five Spalding athletic shirts. The third prize in the contest is a pair of athletic shoes, given by Peterson & Ruifs, and the fourth is a set of emblems, either of the regular association pattern, the circle and the triangle, or the emblem of the basketball team.

Every boy in town will be given a chance to win one of these prizes and to that end the association has issued an invitation to the school boys of the city to meet in the boys' room at the building this afternoon at 4 o'clock to organize and talk over the rules of the contest. Refreshments will be served during the afternoon.

Interest in basketball is growing and it is the plan of the association to have every boy in town interested and playing on some team before the new year comes in. Yesterday afternoon the class for high school boys, which will do athletic work and play basketball, was started. Two leagues are already under way and Saturday night the members of the Senior class will meet to organize for the Winter. Plans are already on foot to play several outside teams during the season and with the good material that has already come in an excellent team will be ready for work by January 1st.

PERSONAL PARAGRAPHS.

—Mr. Irl Sell, assistant foreman of the Morning Star, has returned from a pleasant visit of several days to his parents at Nashville, N. C.

Rev. W. L. Cuningbgim, presiding elder of the Wilmington district, left last night for Elizabeth City, where he will attend the annual session of the North Carolina Conference.

—Rev. T. C. Ellers, pastor of Shallotte circuit, was in the city yesterday on his way to Elizabeth City to attend the annual session of the North Carolina Conference of the M. E. Church, South.

—Mr. Sam Burritt, who is pleasantly remembered here as an attache of the contest department of The Star, spent Sunday in the city. Friends will be pleased to learn that he has accepted the position of circulation manager of The Raleigh Evening Times and will therefore remain in this State.

—Among those registered at The Orton yesterday were John W. Riley, Rockingham; E. J. Hill, Warsaw; Mr. and Mrs. Henry Mullins, Marion, S. C.; J. M. Myers, Burgaw; W. H. Pike, Southport; Mr. Franklin Sherman, Raleigh; J. W. Coppege, Greensboro; Mr. and Mrs. Robt. W. Davis and children, Southport.

COUNTY SUPERINTENDENTS.

Educators to Gather in the City Next Week for Meeting.

As announced some time ago the annual meeting of the Southeastern Division of the Association of County Superintendents will be held in this city Thursday, Friday and Saturday, December 8th, 9th and 10th and a large attendance is expected. The high school principals in the division will meet here at the same time. The division is composed of 20 counties in which there are 32 high schools. State Superintendent J. Y. Joyner and Prof. N. W. Walker, State Inspector of High Schools, will be present and take part in the meetings. Arrangements for the gathering are being made by Prof. Washington Catlett, county superintendent of public instruction, and Mr J. J. Blair, city superintendent of schools.

THE SMALLPOX SITUATION

Although There Are A Number of Cases There is No Occasion for Alarm—Other Counties Affected—Vaccination.

Although there are about 50 known cases of smallpox in Wilmington, the patients being either at the pest house or under quarantine at their homes, the situation is no worse here than in scores of other cities and towns of the State, the disease being prevalent in nearly every county, there is no occasion for alarm, according to the health authorities and others qualified to speak of the disease and its presence in this city. Some have been inclined recently to be very much alarmed over the situation as the following anonymous communication would indicate:

"Editor Morning Star:—The smallpox situation in this city is a serious matter that now confronts us, and the great number of cases that are now scattered over the city without being guarded sounds an alarm that should arouse every citizen to action.

"An epidemic of the disease in this city is just what everybody should try to prevent, and just why the Board of Health is not taking proper precaution of having the homes now affected with it guarded to keep it from spreading, is what the public would like to know.

"The disease in the city has been completely stamped out many times in the past by adopting this method of controlling it. Why abandon the plan now when the city is in danger?

"A CITIZEN."

When shown the communication, Dr. Joseph Akerman, city superintendent of health, commented upon the situation here. He said there was no occasion for alarm; that the number of cases was far less than he had anticipated from the number during the Summer months, and the further fact that negroes from a distance are constantly coming in here to seek employment. To guard the homes, as was done some years ago, only in the day time, would not aid in stamping out the disease, for it would be an easy matter for those under quarantine to leave their homes at night and return before time for the guard to go on duty next morning. The quarantine has been pretty generally regarded, only few cases having resulted from failure of patients to abide by the quarantine regulations. The spread of the disease has been due largely to the fact that many patients, suffering from the disease in a mild form, never call a physician and the cause of their illness is not known by the health authorities until they have fully recovered. During their illness they are visited by scores of others and in this way the disease has been carried from one section of the city to the other. Some times the patients themeselves know they have smallpox and purposely avoid calling in a physician for fear of being quarantined or sent to the pest house. This condition would still have to be reckoned with even if the homes of known victims of the disease were guarded day and night.

The only certain way to stamp out the disease in the State, said Dr. Akerman, is to require every person to be vaccinated. Recently the Board of Health ordered that every child attending school should be vaccinated and these instructions are being carried out. Several hundred school children have recently been vaccinated at the office of the city superintendent of health. Dr. Rankin, secretary of the State Board of Health, in an address at Wrightsville Beach last summer stated that quarantine did but little good and that vaccination was the only way to stop the spread of the disease. However, as long as there is a quarantine law the health authorities will continue to enforce it.

In the United States Health Reports, November 18th, under the head of smallpox, it is shown that from June 25th to November 11th the disease was prevalent in 70 odd counties of this State, a total of 1,468 cases reported. New Hanover county showed up well in comparison with the other counties in which the disease has been ranging and several counties showed a much greater number of cases. The disease has prevailed for the past three months in nearly all the surrounding counties as well as in other sections of the State. So it can be seen that smallpox is not confined to this particular locality, and the only safe means to be adopted is vaccination.

LOCAL DOTS.

—It was stated from the hospital last night that Edw. Edwards, the young white man who attempted suicide Saturday night by cutting his throat with a pocket knife, is improving and may recover.

—John Grady and John Russ, colored, were arrested early yesterday afternoon by Deputy Sheriff Harvey Cox on the charge of an affray. They were tried before Justice W. McD. Evans and required to pay the costs.

—By deed filed for record yesterday, Thos. H. Wright and E. C. Bender and wife transfer to I. J. Crews and wife, for $100 and other consideration, lot on north side of Church, 264 feet from 14th street, 33x82 1-2 feet in size.

Theatrical

"Midnight Sons" Thursday Night.

Lew Fields' prodigious musical success, "The Midnight Sons," with its cast of 100 people and tremendous scienic equipment, will be the attraction at the Academy, Thursday night and seats will go on sale tomorrow morning at Hummer's. "The Midnight Sons" doubtless is the most widely advertised musical play ever staged. This is largely due to the fact that it remained 36 weeks at the Broadway Theatre, New York, where it attracted the attention of every visitor to the city. The play so strongly appealed to these visitors that Mr. Fields and the Shuberts are sending "The Midnight Sons" on tour in spite of the enormous expeuse attached to the transportation of such heavy and massive scenery. For one scene alone, which takes over 15 hours to put in place, nearly 100 carpenters, stage hands, scene shifters and electricians are required to operate the scenery and properties. This scene shows the interior of a theatre with an audience of nearly 500 people.

The Midnight Sons" is classed as a "Musical moving picture in eight films," which is a way of saying that it is divided into two acts. There are 30 musical numbers interpreted by some of the best known singers and comedians on the stage, a chorus of over 60 girls and boys, an English pony ballet, which is a hobby with Mr. Fields, and a special company of vaudeville artists, the latter being engaged and carried with the production as features of the "theatre scene." While "The Midnight Sons" is spectacular in nature, the fun element has not been overlooked, as any one who has ever seen "The Midnight Sons" is sure to talk of the "screaming" shoe store scene in which two Jersey cook ladies with rather generously proportioned feet enter a store for the purpose of having their pedal extremities fitted with the very latest in footwear. Unable to effect a fit the two shoe clerks in desperation bring out a set of horse-shoer's tools and with these unsightly and heavy instruments, they manage to pull a No. 10 shoe partly on a No. 13 foot, finally handing each of the two excited, flabber-gasted cooks a pair of crutches upon which to limp their way out of the store. There is also considerable fun in the theatre scene. Pansy Burns, one of the cook ladies, is asked to remove her hat, and the brief monologue delivered by her on the impudence of man in asking a woman to remove her Chantecler toque is almost as funny as the shoe store incident.

New Wayburn, the general stage director for Lew Fields, has staged this play along big and lavish lines. Raymond Hubbell has written the music, and Glen MacDonough the book, while Arthur Voetglin of the New York Hippodrome, has designed and built the scenery with the exception of the scene showing a Pullman train in motion.

At the Bijou Today.

"Examination Day at School," an excellent Biograph subject, will feature the bill at the Bijou today. It is an object lesson to educators. "A Day on Business" is another picture of interest, which will be shown. It is snappy farce-comedy with a scream in every foot.

Joyland Today.

The feature film at this popular little picture house for today will be "The King of Beggars." The story is very interestingly told and, should prove a great drawing card. The next feature film will be "The New Butler," and is one of those pictures which always please. Illustrated song, "The Dear Old Folks," which is one of the latest songs out.

The Crystal Palace.

The two teams this week are presenting splendid acts which are exceedingly pleasing the Palacites. While playing his own accompainment, the dancing of one of the comedians is a special feature. An allustrated song has been added to the programme; it is rendered by little Miss Cordray who appeared with the amateurs Friday night. Especially attractive photoplays are on today.

FRECKLES

November the Month to Get Rid of These Ugly Spots.

Now that the Fall winds have brought their usual crop of freckles, the woman with tender skin finds her face covered with ugly blemishes and she fears that she has ruined her complexion.

Fortunately for her peace of mind, the recent discovery of a new drug, Othine—double strength, makes it possible for even those most susceptible to freckles to have a skin clear and white. No matter how stubborn a case of freckles you have, the double strength Othine will remove them. Get an ounce package from J. Hicks Bunting Drug Co., and banish the freckles.

Money back if it fails.

BIG STEAMER FROM CHILE.

Brings Cargo of Nitrate of Soda 3,000 Miles—Shipping News.

After a voyage of about 3,000 miles from Valparaiso, Chile, the British steamer Foxton Hall, Capt. Harris, arrived yesterday with cargo of nitrite of soda consigned to the Seaboard Air Line. The steamer, which made the trip around Cape Horn, had a good passage and will come up the river today to begin discharging at the railroad terminals. The vessel has a cargo of 6,200 tons and draws 23 1-2 feet of water.

The schooner Edwina, Capt. Smith, arrived with a cargo of cement from New York, consigned to the Carolina Portland Cement Company, to be discharged at the Seaboard terminals. The tug Standard arrived yesterday, towing barge No. 92, from New York. The cargo is being discharged to the Standard Oil Company.

Shall Women Vote?

If they did, millions would vote Dr. King's New Life Pills the true remedy for women. For banishing dull, fagged feelings, backache or headache, constipation, dispelling colds, imparting appetite and toning up the system, they're unequalled. Easy, safe, sure. 25c at Robert R. Bellamy's.

TWO CHARGES PREFERRED.

Mr. J. O. Brock Arrested Yesterday Afternoon—Hearing.

Charged in one warrant with carrying a concealed weapon and in another with assault with a deadly weapon upon Mr. Haywood F. Newkirk, of the Wilmington Motor Car Company, Mr. J. O. Brock, the well known dealer in electrical supplies, was arrested yesterday afternoon by Constable Savage. The warrants were sworn out by Mr. Newkirk before Justice Harriss. Mr. Brock waived preliminary examination and was bound over to the Recorder's Court and the cases will probably be investigated today. The prosecutor alleges that Mr. Brock came to the South Second street garage of the Wilmington Motor Car Company and started a discussion regarding a coil. The discussion must have been rather heated, for it is alleged that Mr. Brock drew a pistol on Mr. Newkirk.

AFTER EFFECTS OF THE GRIP.

It is fortunate that the Grip epidemic this year is milder in its action than in previous years. This does not mean that it is less dangerous.

The after results of the Grip are apt to be exceeding serious. Do not take any chances—for the general weakness, and to allay all bronchial irritation after the fever has passed, nothing equals Vinol, which is a delicious combination of the healthgiving properties of the cods liver, with the grease eliminated and tonic iron added.

A lady from Long Branch, N. J., writes:—"The Grip left me in a nervous, weakened, run-down condition. After taking three bottles of Vinol I am better and stronger than I have been for years and I cheerfully recommend Vinol to all who have been ill and need strength." (Name furnished on request.)

After Grip or any severe illness try a bottle of Vinol with the understanding that your money will be returned if it does not restore your vitality and strength. Robert R. Bellamy, Druggist, Wilmington, N. C.

Dry Your Clothes on a Wet Washday
With a New Perfection Oil Heater

When clothes can't be hung outside, and must be dried in a room or cellar, the New Perfection Oil Heater quickly does the work of sun and air. You can hang up the wet clothes, light your Perfection Oil Heater, open the damper top, and the heat rises and quickly dries the clothes.

Do not put off washing to await a sunny day in order to avoid mildew. Dry your washing any day with hot air from a

PERFECTION SMOKELESS OIL HEATER

Absolutely smokeless and odorless

It gives just as much heat as you desire. It is safe, odorless and smokeless.

It has an **automatic-locking flame spreader,** which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back, so the wick can be quickly cleaned. Burner body or gallery cannot become wedged, because of a new device in construction, and can always be easily unscrewed for rewicking.

An indicator shows the amount of oil in the font. Filler-cap does not need to be screwed down, but is put in like a cork in a bottle, and is attached to the font by a chain. Finished in japan or nickel, strong and durable, well-made, built for service and yet light and ornamental. It has a cool handle and a damper top.

FINANCIAL and COMMERCIAL

A RAPID DECLINE IN COTTON

Spot Closed 15 Points Lower After New High Records for March—Yield Placed at 11,445,000. Day in Market.

New York, Nov. 28.—After making new high records for the season March and later positions at the opening of the cotton market ruled easy today and closed barely steady at a net decline of 9 to 14 points.

The market opened steady at an advance of 2 to 7 points with March contracts selling at 15.25 and May at 15.40 on the call, or nearly a cent a pound above the low level reached during the middle of the month. This advance reflected over Sunday buying orders and the relatively firm ruling of Liverpool which was said to be influenced by the crop estimate of a prominent New Orleans authority placing the yield at 11,445,000 bales excluding linters. It had been anticipated in local circles, however, that this estimate would be even smaller than actually reported ;it had, therefore, been discounted, and after the opening here prices weakened under extremely active realizing, selling by spot houses and aggressive local selling for a turn. The circulation of December notices estimated at about 80,000 bales, was accompanied by no particular liquidation of the near months, but it was said that the spot people who were taking up the December cotton were selling the late months against it, and while there was a big demand, partly from outside sources, gradually eased off until they showed a net loss of from 16 to 19 points. At this level offerings became rather smaller and the market rallied to nearly the closing figures of Saturday on covering by early sellers New Orleans bull support and some commission house buying, but later eased off again under renewed liquidation, bear pressure and apprehensions that stop loss orders might be uncovered on a scale down. The close was within 4 or 5 points of the lowest on most of the active months. Most of the Southern advices received here during the day were bullish on the spot situation claiming a good demand and good sales were reported from Savannah. The markets officially reported early were 1-16c lower to 5-16c higher.

Receipts of cotton at the ports today were 83,857 bales against 61,142 last week and 35,706 last year; for the week 350,000 bales against 391,414 last week and 220,541 last year. Today's receipts at New Orleans 17,422 bales against 4,427 last year.

Spot cotton closed quiet, 15 points lower; middling uplands 15.00; middling gulf 15.25.

Futures opened steady and closed barely steady.

ACUTE WEAKNESS OF STOCKS

Factors Combine to Cause the Dull Market—Union Pacific, Steel and Reading Leaders—Group of Speculators.

New York, Nov. 28.—A number of factors combined to cause the acute weakness of stocks today, some positive and some merely passive. The most significant fact in the day's greatly expanded dealers, however, was that United States Steel, Union Pacific and Reading held to the full the overwhelming preponderance of activity over the whole market combined, which have characterized these stocks for weeks on end.

This fact offered convincing evidence that reversal of position by the small group of wealthy speculators and bankers who have practically carried the whole of recent markets, was in progress.

The fact which seems to have most influence on this action by the leading speculative forces was the interview sent from St. Paul yesterday with Chairman James J. Hill, of the Great Northern Railway. The picture painted by the great railroader was a gloomy one of unemployment for large numbers of men and a halt in profitable activities throughout next year as a penalty for the world's past extravagancies. An effective and timely supplement to Mr. Hill's interview in forcing the decline in prices was the tone of advices from the iron and steel trade. Mr. Hill's specifications of diminished requirements of his own system for material were taken as fairly typical of general conditions. Reports that new contracts for steel products are still falling behind current shipments with consequent curtailment of operation did not point to the expected revival of demand from the railroads.

The disappointing action of Lehigh Valley on its introduction to the New York Stock Exchange was a more passive influence on the day's weakness, but not less elective on that account. This stock, of a par value of $50, having becoming familiar on the Philadelphia Stock Exchange for quotations in dollars, became subject to the New York rule of quotation of percentage value. The closing price of Saturday in Philadelphia of 94 1-4 was translated into New York terms of 188 1-2, therefore, the fluctuations were accordingly doubled in range. In addition it had been expected that the capitalists active in Lehigh Valley and Rock Island, with a supposed supplementary speculative interest in Reading would signalize the entrance of the new stock by a bullish demonstration. Instead there seemed to be efforts to take advantage of this expected demonstration to market stocks. Lehigh Valley itself dropped to 179 1-2.

The suspicion that the sources of the selling were the same as nearly all of the recent buying constituted the real weakness of the market which became acute in the entire absence of demand at offered prices. There were many losses reaching 3 points and some over five. Last prices were about the lowest.

Bonds were easy. Total sales par value $2,033,000. United States bonds were unchanged on call. Total sales 805,300 shares.

THE GRAIN MARKET.

Chicago, Nov. 28.—It was estimated here today that the world's wheat supplies show nearly ten per cent. more available than the theoretic requirements for the remainder of the year. This condition acted as an offset to smaller world's shipments than expected and to a decrease in the United States visible supply. Accordingly the market here closed precisely the same as 48 hours previous for May and 1-8c lower to 3-8 to 1-2c higher for other months. There was a net decline of 1-8 to 3-8 to 1-2 in corn and a shade to 1-8c in oats. Latest prices for provisions were up 7 1-2 to 22 1-2.

Wheat—No. 2 red, 92 to 92 5-8; No. 3 do, 89 3-4 to 91 1-2; No. 2 hard, 92 1-2 to 94 1-2; No. 3 do, 90 to 91 1-2; No. 1 northern, 1.07 to 1.08; No. 2 do, 1.05 to 1.07; No. 3 do, 1.04 to 1.06; No. 2 spring, 98 to 1.04 1-2; No. 3 do, 95 to 1.03; velvet chaff 90 to 1.00; durum, 82 to 92.

CORN—No. 2, 48 to 50; No. white 48 to 50; No. 2 yellow 51 1-2 to 51 3-4; No. 3, 47 1-2 to ; No. 3 do new 43 to 44; No. 3 yellow 51 to 51 1-2; No. 3 do, new, 45 to 46 1-2; No. 4, 46 to 46 1-2; No. 4 net, 42 to 42 3-4; No. 4 white, 46 to 46 1-2; No. 4, do, 42 to 42 3-4; No. 4 yellow, 50 to 50 1-2; No. 4, do, new, 42 to 43.

Oats—No. 2, 32 1-2 to 33 1-4; No. 3 do, 31 3-4 to 32 1-2; No. 4, do, 31 1-2 to 32; standard, 32 1-4 to 32 3-4.

COTTON REPORTS GOOD

Foreign Markets Made Good Showing in Early Traders.

(Special Star Telegram.)

New York, Nov. 28.—Liverpool and Manchester reports were good and our market responded with an opening of two to eight points above the close of Saturday, but this was immediately followed by liquidation due partly to the views of a prominent railway magnate regarding the condition and prospect of trade published this morning. From the extreme low figures there was a slight reaction, but the market was heavy during the entire day, the slight reaction being feeble. The New Orleans Times-Democrat estimates the crop at 11,445,000 bales in line with the recent views of calculators.

December notices were issues today say 75,000 to 80,000. Free selling of March deliveries seemed to be by the bull interests, touching stop orders on the decline. Professional activity was greater, but the bull element was not aggressive and the market looks tired with profittaking. Heavy spot business is reported in the Southwest and the movement of the crop is liberal. People are beginning to doubt that the December government report will advance prices under any estimate given.

HUBBARD BROS. & CO.

CHRISTMAS CLOSING.

Liverpool, Nov. 28.—The cotton exchange here will be closed December 24, 26, 27 and 31 and January 2, Christmas holidays. On December 9th the exchange will close at 4 P. M., and re-open from 6:45 to 8 P. M., to receive the final estimate of the American cotton crop by the Department of Agriculture.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Bonds bear six per cent. interest, payable annually. Principal payable in ten equal annual installments, beginning three years from date of issue.

Address,
B. F. KEITH,
Chairman, Wilmington, N. C.
nov. 22-1taw-4t-Tu.

ADVERTISEMENT.

Sealed proposals for paving Front Street from Dawson Street to Wright Street, Wright Street from Third Street to Sixth Street, and Sixth Street from Wright street to Dawson street, for the City of Wilmington, N. C., will be received by the Board of Aldermen at the Mayor's office up to noon, December 22nd, 1910, and at that time they will be opened and publicly read, addressed to Capt. Walter G. MacRae, Mayor, and endorsed "Proposals for Paving Streets."

The work or which proposals are invited consists approximately of 4,265 square yards of macadam pavement.

Each proposal must be accompanied with a certified check of five per cent. (5) of the contract price and made payable to the Board of Aldermen of Wilmington, N. C.

Specifications and blank forms of proposals can be obtained by application to the City Engineer, and profile may be seen at his office.

The right is reserved to reject any and all bids.

PROBING FIRE DISASTER.

May Result in Prosecution.—24 Persons Were Killed.

Newark, N. J., Nov. 28.—"If I find any City or State official guilty of negligence in the inspection of this building," said County Prosecutor Mott today, as he stood by the ruins of the factory in which 24 girls lost their lives by fire last Saturday, "there will be the bitterest sort of prosecution.

"I do not mean to imply," he said, "that I have before me any evidence of criminal negligence, but I do mean that the investigation which began today shall be in earnest. My view is that it ought to take the form of some sort of public hearing and I think a coroner's jury will be the most effective instrument.

Accordingly a coroner's jury was sworn in the first of its kind that has sat here in 20 years. County physicians ordinarily perform such tasks. There will also be separate inquiries by the grand jury, the State Labor Department and the city building department. The destroyed building was the property of Miss Barbara Glass, who has issued a statement declaring that the structure was adequately equipped with fire escapes.

Funerals of many of the victims were held today. That of Dora, Minnie and Tillie Gottlieb, three sisters, was particularly pathetic.

Many of the girls and women killed were supporting their families in whole or in part. One woman left a blind daughter almost penniless, and there is much actual want in other households. A relief fund started yesterday has now reached $2,000.

AFTER THE SUGAR TRUST.

Government Files Suit For Dissolution of Big Combine.

New York, Nov. 28.—The Federal government began today one of its most important suits against great corporations, which are said to have violated the Sherman anti-trust law. Henry A. Wise, United States district attorney, filed in the United States District Court for the Southern District of New York a petition asking for the dissolution of the American Sugar Refining Company, and 29 other corporations which compose the so-called sugar trust. The petition charges an illegal combination in restraint of trade, and asks from the court relief in what ever form may be necessary, including a receivership if deemed advisable.

The 30 companies, composing the sugar combine, have an aggregate capitalization of $90,000,000 and control a large percentage of the output of sugar in this country. The combine is able the government alleges, to fix prices arbitrary. The petition charges that for years the companies have violated the law, and have oppressed competitors and ground them out of existence. Railroad rebates and customs frauds are mentioned and devices which were employed to raise the combine to the commanding position which it occupies today.

DISAGREES WITH MR. HILL.

Bedford Believes Trade Prospects Are Good—Outlook.

New York, Nov. 28.—Among the men in the financial district who commented today upon the pessimistic trade prspects credited to James J. Hill, president of the Great Northern Railroad, was E. T. Bedford, a director of the Standard Oil Company, and President of the Corn Proucts Refining Company. Mr. Hill was credited in an interview sent to several Eastern newspapers from St. Paul, Minn., as having said that we are about to pay the price for general extravagance, and that he told President Taft a few days ago that there would be many thousands of men thrown into idleness next year.

Mr. Bedford disagreed with Mr. Hill and indicated that he saw no sign of a business lapse in 1911. This was the way he voiced his hopeful outlook:

"I cannot share the pessimistic views of Mr. Hill. I believe we are going to have a slow, but healthy recovery in business, with a gradual strengthening of confidence."

Berlin, Nov. 28.—Four tanks containing two and a half million gallons of benzine exploided in the suburb of Bummelsburg. There were no fatalities but the whole city was lighted up by the flames. The damage is estimated at $50,000. Other tanks holding 2,000,000 gallons were endangered.

LONG AND SHORT HAUL.

Complexities Treshed Out Before the Commerce Commission.

Washington, Nov. 28.—The complexities of the long and short haul phases of railroad traffic, were treshed out before the Interstate Commerce Commission today and the interpretations to be placed on privisions of the fourth section of the amended interstate commerce law, governing this subject, were taken under advisement.

All day counsel for railroads in all parts of the country argued their views as to the way the commission should interpret that section. The western lines including the Union Pacific system, the Southern Pacific, Chicago Burlington and Quincy, Great Northern and Northern Pacific contended among other things, that the export and import rates are embraced in the fourth section, while the eastern and southeastern roads, headed by the Pennsylvania system, took the contrary view.

The fundamental idea of the long and short haul clause, as explained by Commissioner Lane and approved by counsel, in the course of a rapid-fire series of questions and answers, was the avoidance of preference to any community in railroad traffic. Most of the testimony was of a technical character and bore on not only export and import problems but also on proportional rates, switching charges and a host of allied subjects.

ILLINOIS COMES THIRD.

Ohio Falls to Fouth Place—Result of the Recent Census.

Washington, Nov. 28.—With an actual population of 5,638,591 and a gain in the last ten years of almost 17 per cent. as shown by the announcement today of the result of the recent census, Illinois is assured continuance as the third State of the Union. Only New York and Pennsylvania outrank her, while Ohio, which occupied fourth place, falls almost a million below.

The increase in Illinois is somewhat greater than that of any of the middle western States, whose population so far have been announced.

The announcement for Illinois merely emphasizes the fact that the greatest gains are in the cities. Of the 817,041 additions to the population of that State, 486,708 were in Chicago alone. Chicago is shown to possess about two-fifths of the State population.

Forty-nine of the 102 counties of the State showed decreases in population during the past ten years, while 20 other counties showed gains of less than 2,000 during the decade. The loss in no instance exceeded 3,000.

The State should gain at least four Congressmen if the proposed new apportionment law should be based as present.

WOMEN IN BRIBERY CASE.

Principal Witness at Trial in Mississippi—Dulancy Accused.

Azore City, Miss., Nov. 28.—Mrs. Neill Lawrence, who, it is charged, acted as the "go-between" in the alleged attempted bribery of State Senator Theodore Bilbo during Mississippi's Senatorial contest of last January, was the principal witness of today in the trial of L. C. Dulaney, accused as the bribe-giver. Incidentally the prosecution announced the completion of its case in chief and the defense began the presentation of their evidence. In her testimony she said that she brought Bilbo and Dulaney together and had understood that money was being used to further the election of U. S. Senator Leroy Percy.

Other witnesses introduced by the prosecution, members of the State Senate, testified that Bilbo had communicated to the suspicion of irregularity in connection with the election. W. H. Ratcliffe and J. L. Toler, were witnesses for the defense. They testified that Bilbo, as chairman of a Senate committee, had intimated that the working of a certain measure through the Legislature would be worth $3,000.

GLOOM AT WHITE HOUSE.

Perplexities of Tariff and Death of Calf Direct Causes.

Washington, Nov. 28.—There was no joy at the White House today. The perplexities of the tariff, the forthcoming message to Congress, the mixed condition of affairs in the Republican party, all were lost and forgotten in the gloom that overspread administration circles.

"Big Bill", Pauline Wayne's aristocratic young calf is dead. The end came suddenly last night at the White House stables. Brain fever caused the blue blooded young bovine's demise. "Big Bill" had been promised by President Taft to "Big Bill" Price, the dean of the White House correspondents, and was soon to have been transferred to a Maryland farm where a special stable had been made ready for his reception.

The loss of the calf caused a sensation at all the circles at the capital today. The calf was born on election day and some politicians in Washington declared from the first that that was a bad omen.

AGAINST PRIZE FIGHTS.

Asserts That Law Was Violated by Nelson and Moran.

San Francisco, Nov. 28.—With a view to reviving the opposition to prize fighting in California, which was started at the time of the Jeffries and Johnson contest, J. H. White, attorney for the San Francisco Church Federation, today addressed a letter to District Attorney Fickert, asserting that the law was violated by the Nelson and Moran fight last Saturday. White wrote that citizens were anxiously awaiting word as to what action would be taken in the matter.

District Attorney Fickert said that if the law was violated by promoters and principals of the Nelson and Moran fight, the attorney for the Church Federation could swear out complaints. Mr. Fickert intimated that he personally would take no action.

STRIKE LEADERS GUILTY.

Three at Tampa, Fla., Sentenced to One Year Each in Jail.

Tampa, Fla., Nov. 28.—In criminal court today Jose De La Campa, Brit Russell and J. F. Bartium, strike leaders recently convicted of conspiring to prevent by force striking cigar-makers from going to work in the local factories, were sentenced to a year in jail each. Notice of appeal was given. The defendants were re-committed to jail.

CHILD MET HORRIBLE DEATH.

Dragged Along Rocky Road by a Runaway Horse.

Stroudsburg, Pa., Nov. 28.—Tied to to supposedly gentle farm horse by her mother, five-year-old Lula M. Nash met a horrible death here today when the animal ran away and the child, who slipped from his back, was dragged for a distance of a quarter of a mile along a rocky road.

The frenzied mother, Mrs. Nellie Nash, of Wilkesbarre, who was mounted on another horse, started in pursuit in a vain effort to save her baby whose head was beaten by the animal's hoofs as well as the stones along the road.

MAYOR OF WADESBORO.

W. K. Boggan Resigns and Fleetwood Dunlap is Elected.

Wadesboro, Nov. 28.—At a called meeting of the Board of town commissioners held today W. K. Boggan tendered his resignation as mayor of Wadesboro to take effect Wednesday at noon. The resignation was eccepted and Mr. Fleetwood M. Dunlap was unanimously elected by the board to fill out Mr. Boggan's unexpired term. Mr. Boggan will be sworn in as Clerk of the Superior Court next Monday and he resigned as mayor because of his election to that office.

TEXAS BANKER SUICIDES.

Recently Indicted for Alleged Larceny of $8,000 at Rockport.

Rockport, Texas, Nov. 28.—George W. Tufts, former cashier of the Rockport National Bank, who was recently indicted for the alleged larceny of about $8,000 from the bank, committed suicide by shooting himself through the heart here late today. He was out on bail pending an examination as to his sanity. Tufts was 52 years of age He was prominent in local affairs. He is survived by a widow and one son.

HONOR AMERICAN NAVAL MEN.

Vreeland and Ten Officers at Cherbourg.—Visited Arsenal.

Cherbourg, Nov. 28.—Rear Admiral Vreeland, commanding the second division of the American Atlantic fleet and ten officers from the ships, were taken today to the arsenal dock yards on invitation of the minister of marine. This is considered an exceptional privilege. They were shown the ships now under construction, including the big submarines Mariette and Franklin, and the ill-fated Fiuviose, which is being repaired. The American officers also inspected the submarines depot.

Fort Monroe, Va., Nov. 28.—Sir Lomer Gouin, prime minister and Attorney General of the Province of Quebec, and J. T. Mullaskey, of Montreal, arrived here today to join Sir Charles A. P. Pelletier, Lieut. Governor of Quebec, who is here for the benefit of his health. All of the party will remain here for a month. Lieut. Col. C. P. Townsley, U. S. A., commandant of Fortress Monroe, paid an official call upon the Canadian visitors.

New York, Nov. 28.—The unsolved State of New York latest trunk murder mystery, is indicated in the request made to the State Department at Washington by Police Commissioner Cropsey. He has asked the Department to instruct American consuls in Great Britain, France, Italy and Germany, to procure the arrest, if they are found, of William Lewis and Albert C. Callier. This move by the commissioner shows the baffling perplexities of the crime in that the body has never been identified.

Minneapolis, Minn., Nov. 28.—The Minneapolis Baseball Club, of the American Association, today announced the purchase of Pitcher "Rube" Waddell from the St. Louis American. Waddell played with Newark this year, but was returned to St. Louis at the end of the season.

Louisville, Nov. 28.—Five jurors were selected today to try Joseph Wendling, charged with the murder of Alma Kellner, 8 years old. The venire was exhausted and court took a recess until tomorrow.

IF WOMEN ONLY KNEW

What a Heap of Happiness It Would Bring to Wilmington Homes.

Hard to do housework with an aching back.

Brings you hours of misery at leisure or at work.

If women only knew the cause—that

Backache pains come from sick kidneys,

'Twould save much needless woe.

Doan's Kidney Pills cure sick kidneys,

Wilmington people endorse this:

Miss Mattie Hodges, 609 S. Fifth St., Wilmington, N. C., says: "Since using Doan's Kidney Pills I have felt better in every way and am pleased to add my testimonial to the many already given in favor of this remedy. I had kidney trouble for years. My back ached most of the time and when I stooped or lifetd, sharp pains caught me across my loins. I had but little strength or energy and was also bothered by a kidney weakness. I used one box of Doan's Kidney Pills, procured from Robert R. Bellamy's drug store and they disposed of the backache, strengthened my kidneys and gave me ambition and energy."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

no 26-29-de 1-3t.

Knoxville, Tenn., Nov. 28.—The Ministerial Association of Johnson City today issued an address to the women of that city, urging them to remove their hats at church services. The address, signed by every preacher in town except one, states that it is not because the pastors do not admire the hats, but in order that the gospel may have full power.

500 dozen handkerchiefs just received for the holiday trade. C. H. Fore & Co. **

A PRODUCT OF THE SOUTH.

Cotton has always been one of the main resources of the South. In former days, only the cotton lint was preserved; the seed was thrown away as worthless. In recent years, however, this once waste product has been developed until now cotton oil adds millions yearly to the wealth of the South.

Foremost in perfecting methods of refining the oil have been The N. K. Fairbank Company. In the manufacture of Cottolene they have changed cotton oil into a cooking fat as wholesome as olive oil, yet so pure and neutral that it is preferable to butter in making fine cake and pastry.

STAR BUSINESS LOCALS
